Dear City Council City Council,

I am asking you to oppose Ordinance 230092.

I want to state my biases plainly - I am an avid cyclist. I believe roads should be built for people first and cars second.

But I do not feel attachment to Truman road or its bike lanes. I have ridden them - they are dangerous for cyclists. You cannot turn left out of them. They are already full of debris. This project has never been about what's best for cyclists.

Regardless of who this project was designed for it has become abundantly clear that Truman stands for something larger now. If the city moves forward with this dangerous ordnance it won't just be cyclists who are harmed, it will be every driver who causes an accident driving recklessly on a recklessly designed road.

I urge you not to make an example of Shawn Arcidino. I do not want to live in a city where one entitled landlord is able to derail progress that will literally save lives.

Regards,
