Hello -

I've been informed via BikeWalkKC - as a daily cyclist and resident of Hyde Park living off Gillham this is MIND-BOGGLING to me. These PBL have changed the environment in our neighborhood made it quiet, safe and bike + walkable. Neighbor and kids feel safe and it's made cycling from midtown to downtown a safe and FUN experience as opposed to, I hope I get there and don't get yelled at, hit, or scared.

Removing this is a terrible mistake and not advocating for more is a disappointment. Shame on all of you at City Council.
