> Greetings:
> I am writing to urge you to vote no on this completely unnecessary and harmful natural gas resolution. If we are to have a prayer of limiting global warming to 1.5 degrees, we have to electrify everything as fast as possible. We need to end our reliance on fossil fuels. I understand that our state government already prohibits this kind of bold action by cities, but come on. We don't need to join Spire's chorus here.
