Hello.
I am a user of cannabis who would be negatively affected by this sudden and unexpected proposal banning the sale intoxicating cannabinoids, synthetic cannabinoids, nitrous oxide, bath salts, K2, and Kratom/ 7oh within Kansas City, Missouri in the month of December.

This ban would eliminate access for a responsible adult such as me and should not take place.

We should instead support statewide regulation. These safety guardrails entail the protecting of consumers without eliminating jobs or shutting down responsible businesses such as Hemp Haus on 39th street.

Thank you,
Nicholas Kraske
