Good Afternoon,

My name is Brian Johnson, a Program Director with High Aspirations and I support the Kansas City Youth Commission initiative. Although Kansas City has been in the media for violent crimes and rising homicide rates, we have a number of young people able to provide input to hear the voices of the community and identify the necessary needs in making a positive impact in the community. The City Council's support will allow us to be stronger together for the sake of our youth.

Thank you
