Subject: Mask mandate
Date: Tuesday, September 21, 2021 11:10:17 AM

Ok, this is a whole lot simpler than most people think:

If masks are so effective why are 650,000+ Americans, 10,007+ Missourians, and 2,400+ Kansas Citians dead of covid? And most of them dead *after* the mask mandates went into effect? How long do you think people are going to keep falling for mask junk science and participating in the resulting hygine theater?

Lucas says this is the best advice from health advisors. Sounds to me like he needs to get some new advisors if the ones he has now can't see what's in plain sight.

People are angry, *REALLY* angry. How long do you think you can keep provoking people? Do you really think people are willing to wear masks for months or years?

Enough is enough.

Sincerely,
Margaret Lorraine
