Dear Public Testimony Public Testimony,

I'm writing to implore you to oppose Ordinance 250382. All of KC is in need of more pedestrian and bike safety resources, not less. My family uses the bike share program as well as many of our friends and neighbors. Removing that program will have detrimental effects on the citizens of KC. The city will need a more robust city transit system to be ready for the crowd needs of the World Cup and possibly the future ballpark downtown. Now is the worst time to cut back on these resources. Less cars! More buses, bikes, and better and safer pedestrian routes are the future of successful cities, not less. Also, as inflation continues to rise, more people are going to lose their access to cars and will need public transit. Please do not pull these resources!

Regards,
Haley Jester Mott
