Dear City Council Members,
I oppose 210966 and believe that bike lanes and other pedestrian infrastructure projects in the Complete Streets Plan are important to resident health and quality of life. I live along Gillham Road, and I welcome the bike lanes and traffic calming measures. I look forward to their extension so that cyclists, runners, walkers, and families can use these protected lanes to safely access school, work, and city amenities.
Sincerely,

--
Maggie Curry-Chiu
