To Whom it May Concern,

I've lived in Kansas City for my entire life, and inside the city core in the Volker and now Valentine neighborhood for the last 15 years- and I am writing to express support for the updated parking code. I wholeheartedly support the decision to remove parking minimums within the urban core.

I rode the max bus growing up whenever I could, at one point it was a big deal to have, and am so encouraged by the strides made in public transportation for the city and its population- the streetcar is amazing! Parking minimums are not necessary and could harm further development to the city. If we want to realize the best vision for the future we must move beyong antiquated laws and ordinances from the past.

Thanks for your work on this effort.

Thank You,
Thomas Woodward
