Good afternoon,

I have been cycling for 8 years as my primary source of transportation in Kansas City. When bike lanes started to be installed over the course of the past few years, it was the safest I've felt riding in KC my entire time cycling. The Gillham bike lane is especially important to me.

We need to keep funding projects like this, because it saves lives, and encourages people to live a healthy lifestyle. More residents will continue to choose bicycling as primary transportation as time goes on. We need to meet that demand, or else people won't be as safe riding their bikes.

Sincerely,

Henry Cordova
