Dear City Council City Council,

I am asking you to oppose Ordinance 230092. The Truman Road protected bike lanes deserve to be preserved and completed.

It's very discouraging, as I wait for any protections at all to come to my end of Kansas City that would make my neighborhood safe to walk and bicycle in, to see that there are short-sighted people ready to waste taxpayer money and undo important updates that have finally been made to our city's infrastructure.

Other towns and cities are making way for green transportation, and, even if one lacks the insight on their own to see how making way for microtransportation and more space for safe walking make our city better for the people who actually live in it, they have access to the information about how those other cities have changed for the better. We need safe spaces for bikes and people.

Regards,
Sarah Crosson
