Hello, I'm reaching out to share my concerns about proposed ordinance 210966. The bike lanes that currently exist in the 3rd district as well as other districts across our city are critical to the safety of our citizens and align with the Safe Streets and Vision Zero goals of our city. This ordinance will not only use tax dollars to remove a safer transit method that has seen much support in our community, but sets a precedent that complaints about trash are more important than the lives of our neighbors.

My husband uses the new Gillham route to commute to work from the 5th District to downtown. The peace of mind that I have now compared to when he would battle rush hour traffic on Paseo and Gillham each morning has improved our quality of life. I hope the same for residents of the 3rd district and I hope you'll reconsider this amendment.

Thank you,

Lauren Jensen
