Dear Public Testimony Public Testimony,

Make it easier for people to bike and use transit and people will bike and use transit. Both are cheaper and more efficient than building solely around cars. If we are going to compete against Omaha, St. Louis, or even Chicago, we need to become a real city with real options.

Put a stop to sprawling stroads with huge liabilities down in the future and place even a small percentage of that towards increasing options for those not fortunate enough to own a car or people that choose not to. Especially in the urban core.

Please oppose Ordinance 250382.

Regards,
Joey Beim
