Hello -

I would like to express my support for Ordinance 220318. As an interested but concerned rider (which makes a a majority of bicyclists), I fully support protected and connected bike lanes in Kansas City. Although there are examples of safe and comfortable infrastructure, like the Gilham Cycle Track, without more connectivity, it can be a difficult to reach amenity, even if you life close to it. With a few key connections, I could safely and comfortable ride my bike to most destinations from my home. Instead, with even 1/2 mile gaps, it's a major deterrent to riding as I fear for my safety.

I'm excited to see Ordinance 220318 proposed to make cycling safe, comfortable, and FUN for all.

Thank you!
Tresa
