Dear Public Testimony Public Testimony,

I'm writing to ask you to oppose Ordinance 250382.
corrected a significant typo from the first submission please take into consideration this draft and negate the previous**********

another shameful attempt at grabbing the spotlight only to undermine the public well being and safety in our city.

pinning those who wish to survive riding their bike, riding the bus and walking the streets of KC against each other is not gonna work.

the lack of understanding of how the public uses transportation and moves around our city (clearly not your city) and what would improve their access and safety on a day to day is astounding.

all that said, we are for a public transpiration system that allows mobility, access and safety...streets that are safe for bike riders, pedestrians and the general public and protection from traffic related casualties.

this ordinance does none of that. DEFUNDING our public transpiration system and the safety guards in place by grassroots organizations is only going to leave a legacy of buffoonery. you might like to clown, but we don't.

Regards,
