Dear Public Testimony Public Testimony,

I'm a regular cyclist around KC and the existing bike lanes are critical for me to get around the city safely and to prevent slowing down traffic. Additionally when I had my bike stolen the city's bike share program was a god send to allow me to continue to get around. Cutting funding to this is a step backwards for KC and will put more lives at risk. The number of times I've had people drive unsafely around me is too high and we should be doing more not less. If this passes I will vote for those who explicitly do approve it. Please propose a plan that gives the needed funding to keep the momentum the city currently has in make this a multi-modal transport city.

Regards,
Mark McOsker
