Dear City Council City Council,

I am asking you to oppose Ordinance 230092. Kansas City should strive to support alternative modes of transportation and not automotive. This is paramount for sustainability, equity, and to make KC a cleaner and healthier city.

Removing bike lanes is a step in the wrong direction and will make Kansas City a less accessible and less desirable city to live in.

Lets also put it this way. How many traffic accidents have killed a cyclist? And how many traffic accidents with a cyclist involved have killed a motorist. Cyclists deserve to be protected from motorists.

Regards,
