Subject: Support Ordinance 220318
Date: Monday, April 18, 2022 9:32:12 AM

To my councilmembers:
I fully support a network of protected bike lanes in Kansas City. Its one thing to support cycling for recreation, but its another to support cycling as transportation. I truly believe these protected lanes are important to increase options for those who cannot or chose not to drive a vehicle in our city to go to work or run errands. I love seeing my fellow neighbors riding in the lanes with their families. I want to see them expanded to the east side so that the entire city can utilize them.
Thank you for your consideration,
Chuong Doan
