Council Members,

I am writing to request that you reject Ordinance 210966.

While I can certainly understand the frustration of some residents who see new bike infrastructure while existing infrastructure remains in need of repair, it should go without saying that spending incremental city resources removing recently installed bike lanes serves no one's interest. These lanes make our city safer, more accessible, and more sustainable. They support long-term goals set by the city. I hope that you will vote to reject this ordinance – I know that I and many others across the city will be watching.

Sincerely,
Evan
