

City of Kansas City, Missouri

Docket Memo

Ordinance/Resolution #: 240369

Submitted Department/Preparer: Health

Revised 11/01/23

Docket memos are required on all ordinances initiated by a Department Director. More information can be found in [Administrative Regulation \(AR\) 4-1](#).

Executive Summary

Accepting and approving a \$15,000.00 grant award amendment from the Missouri Department of Health and Senior Services to establish an Enhanced Gonococcal Isolate Surveillance Project (eGISP) site in Kansas City, Missouri; estimating and appropriating \$15,000.00 in the Health Grants Fund; designating requisitioning authority; and recognizing this ordinance as having an accelerated effective date.

Discussion

The Gonococcal Isolate Surveillance Project (GISP) has served as a national sentinel surveillance system for *Neisseria gonorrhoeae* strains in the United States for over three decades and establishes a rational basis for the selection of gonococcal therapies. The Kansas City Health Department has been one of the primary sentinel sites since 2008 and was selected to identify potential antibiotic resistant strains of gonorrhea circulating within our community.

Federal agencies use the GISP data to develop national treatment recommendations and set research and prevention priorities; while, State and Local governments use the data to determine allocation of STD prevention services and resources, guide prevention planning and communicate best treatment practices to health care providers. Continued surveillance, appropriate treatment, development of new antibiotics, and prevention of transmission remain the best strategies to reduce gonorrhea cases.

Fiscal Impact

1. Is this legislation included in the adopted budget? Yes No
2. What is the funding source?
Health Grants Fund - 2480-505433-G50543325
