Subject: Stop the Mac Project
Date: Wednesday, December 14, 2022 12:48:18 PM

To City council members,

Please continue your research on the terrible parking problems that we have in the historical neighborhood surrounding the Mac Properties development this is only going to make a bad situation worse we need help with the parking between Broadway and Main street now. As it is now there is not enough parking. The proposed parking garage for a development this large is not the size that is needed. We have tenets that cannot find a place to park and cannot have guests visit them currently because of the parking problem. Please review this and realize the on going terrible parking problems in the historic neighborhood currently.

Thank You,

Randy Lombard
