Discussion

Reason for Contract

In 2010, the City of Kansas City, Missouri entered into a Consent Decree with the United States Environmental Protection Agency (EPA) to reduce the volume and frequency of overflows from the City's sewer system. The City's Smart Sewer Program is currently in year 14 of a 30-year implementation period. The purpose of this project is to reduce inflow and infiltration (I/I) flows in the sanitary sewer system. System information was gathered to identify and quantify I/I sources and to develop rehabilitation and I/I source reduction recommendations. Activities will include various sewer rehabilitation methods to reduce I/I and to restore the service life of existing sewers in the project area.

Construction Contract Description

The scope of work to be provided under the construction contract includes rehabilitation or replacement of approximately 370 manholes, 29,000 linear feet (LF) of sewer main ranging in diameter from 8-inches to 24-inches, and 470 associated services lateral connections. The total amount of the proposed construction contract is \$6,045,610.00.

The term of this project will be 480 calendar days.

Solicitation

I/I Reduction: Northern Basin Project 1 was advertised in accordance with the City's requirements on December 18, 2023, and bids were opened on January 23, 2024, with two (2) bidders responding.

Awardee/Subcontracting Participation

The Havens Construction Company, Inc. submitted the lowest, responsible, and responsive bid of \$6,045,610.00, with subcontracting participation of 10% MBE and 10% WBE.

Other Bidders/Subcontracting Participation

Kissick Construction Company, Inc. was the other bidder on this project. They submitted a bid in the amount of \$6,370,295.00, with subcontracting participation of 10.1% MBE and 10.8% WBE.

Estimated Opinion of Probable Construction Costs

The Engineer’s Opinion of Probable Construction Cost was \$7,900,000.00.

Design Professional Services Contract Amendment Description

City Council passed Ordinance No. 200318 on May 14, 2020, which authorized a \$589,000.00 design professional services contract with George Butler Associates, Inc. for conceptual, preliminary, and final design of the I/I Reduction: Northern Basin Project 1 project.

The proposed \$759,000.00 Amendment No. 1 will provide for construction phase services including project management and administration services, construction office and field support services, and resident project representative services.

Prior Legislation

City Council passed Ordinance No. 200318 on May 14, 2020, authorizing a \$589,000.00 design professional services Contract Number 1584 with George Butler

Associates, Inc. for conceptual, preliminary, and final design of the I/I Reduction: Northern Basin Project 1 project.

Service Level Impacts

This inflow and infiltration reduction project will reduce the amount of stormwater and groundwater getting into the City's separate sanitary system by repairing sewer pipe structural defects and help restore sewer conveyance capacity and reduce the occurrence of wet-weather overflows within the City's existing sanitary sewer system, thereby protecting public health and the environment.

Other Impacts

1. What will be the potential health impacts to any affected groups?
The project will protect public health and the environment by restoring sewer conveyance capacity, increasing the service life of the existing sewer system, and improving the water quality of the City's waterways.
2. How have those groups been engaged and involved in the development of this ordinance?
This project area is in a neighborhood that is primarily residential. A public meeting will be held at a suitable location so the construction team (contractor, design professional, and city representative) can meet with the residents to discuss the construction.
3. How does this legislation contribute to a sustainable Kansas City?
This project helps promote environmental quality, social equity, and economic vitality.
4. Does this legislation create or preserve new housing units?
