# TWELFTH AMENDMENT TO THE KCI CORRIDOR TAX INCREMENT FINANCING PLAN

#### I. Introduction

The Twelfth Amendment to the KCI Corridor Tax Increment Financing Plan (the "Twelfth Amendment") shall amend the KCI Corridor Redevelopment Plan as approved by Ordinance No. 990256 (referred to herein as the "Plan") and subsequently amended by Ordinance No. 040618 (referred to herein as the "First Amendment"), Ordinance No. 040619 (referred to herein as the "Second Amendment"), Ordinance No. 040620 (referred to herein as the "Third Amendment"), Ordinance No. 040621 (referred to herein as the "Fourth Amendment"), Ordinance No. 050107 (referred to herein as the "Fifth Amendment"), Ordinance No. 060326 (referred to herein as the "Sixth Amendment"), Ordinance No. 080211 (referred to herein as the "Seventh Amendment", Ordinance Nos. 090260 and 100497 (referred to herein as the "Eighth Amendment"), Ordinance No. 101007 (referred to herein as the "Ninth Amendment") and Ordinance No. 120485 (referred to herein as the "Eleventh Amendment").

The Twelfth Amendment, if approved, would provide (a) for expansion of the boundaries of the Redevelopment Area along Greens Hills Road between Old Tiffany Springs Road and south to the properties at the intersection of Barry Road, (b) for the addition of Redevelopment Projects (c) for modifications to the Budget of Redevelopment Project Costs and (d) for modifications to the Projected Economic Activity Taxes.

### II. Specific Amendments

The KCI Corridor TIF Plan shall be amended as follows:

**Amendment No. 1**: Delete Section III. A, The Plan, in its entirety and replace the following in lieu thereof:

The Plan. The KCI Corridor Tax Increment Financing Plan (the "Plan") would finance the road improvements described by Section I.C. and referenced on Exhibit 7, attached hereto. This Plan contemplates that the improvements will be financed from the sources identified on Exhibit 7, including 50% of the incremental economic activities taxes generated within the redevelopment area and that all payments in lieu of taxes shall be declared surplus and returned to the affected taxing districts.

**Amendment No. 2:** Delete Section III. B, The Redevelopment Area, in its entirety and replace the following in lieu thereof:

The Redevelopment Area includes an area generally bound by Tiffany Springs Parkway and NE 108<sup>th</sup> Street on the North, Barry Road on the South, Interstate 29 on the West, and Platte-Clay County Line on the East in Kansas City, Platte County, Missouri as described in Exhibit 1A.

Amendment No. 3: Delete Section I.C of the Plan in its entirety and insert the following in lieu thereof:

Project Improvements. The Project Improvements to be financed under this Plan will consist of

- 1. Project 1 Ambassador Drive/Route 152 Interchange
- 2. Project 2A Ambassador Drive Extend north from Old Tiffany Springs Road to Skyview Avenue
- 3. Project 2B Ambassador Drive Extend north from Skyview Avenue to Tiffany Springs Parkway
- 4. Projects 3A and 3B I-29 / Tiffany Springs Parkway Interchange and Congress / Prairie View Intersection
- 5. Project 4A Old Tiffany Springs Road Skyview Avenue East to Ambassador Drive
- 6. Project 4B Old Tiffany Springs Road Overpass 500 feet east of Congress to Skyview
- 7. Project 4C Old Tiffany Springs Road Ambassador Drive East to Hull Road, including the bridge
- 8. Project 5A Skyview Avenue North of Ambassador Drive Extension to Tiffany Springs Parkway
- 9. Project 5B Skyview Avenue Ambassador Drive south to Old Tiffany **Springs Road**
- 10. Project 5C Skyview Avenue South of Old Tiffany Springs Road to **Ambassador Drive**
- 11. Project 5D Skyview Avenue South of Old Tiffany Springs Road
- 12. Project 6A Green Hills Road MO-152 north to 500 feet south of Old Tiffany Springs Road intersection

- 13. Project 6B Green Hills Road Old Tiffany Springs Rd to Tiffany Springs Pkwy
- 14. Project 7A Intersection of Green Hills Road at Old Tiffany Springs Road (generally 500 feet in each direction)
- 15. Project 7B Old Tiffany Springs Road from Hull Avenue to 500 feet west of intersection of Green Hills Road
- 16. Project 7C Old Tiffany Springs Road: Line Creek Parkway to 500 feet east of North Green Hills Road intersection
- 17. Project 8 Tiffany Springs Parkway from existing east to Green Hills Road
- 18. Project 9 Old Tiffany Springs Road 500 feet east and west of Congress
- 19. Project 10 North Congress North of Platte County Road Project
- 20. Project 11A Congress south of Old Tiffany Springs Road to Route 152
- 21. Project 11B Congress north of Old Tiffany Springs Road
- 22. Project 12 Barry Road Boardwalk to Ambassador Drive
- 23. Project 13 Old Tiffany Springs Road Western entrance of Tiffany Hills Park west to intersection of Amity
- 24. Project 14 North Polo Drive West arc of North Polo Drive: N Ambassador Avenue to Tiffany Springs Parkway
- 25. Projects 15A and 15B Roundabouts on Tiffany Springs Parkway at Skyview and Ambassador
- 26. Project C1 NW 88<sup>th</sup> Street from N Chatham Avenue to southerly extension of N Beaman Court
- 27. Project C2 N Amity from 152 to Old Tiffany Springs Road
- 28. Projects T1, T2, T3 Trails located along 152 & I-29 between North Green Hills Road and Line Creek Parkway
- 29. First Creek Collector West Branch
- 30. Second Creek Collector Platte Purchase Park Branch
- 31. Second Creek Collector Southeast Branch
- 32. Second Creek Collector Genesis Branch
- 33. Second Creek Collector Quail Run Branch

These specified road improvements are essential to the preparation of the Redevelopment Area for use in accordance with the KCI Corridor TIF Plan. It is anticipated that the incremental economic activity taxes will result from the construction of retail and office commercial development within the Redevelopment Area.

**Amendment No. 4**: Delete the first paragraph of Section IV. A, Estimated Redevelopment Project Costs, and replace the following in lieu thereof:

A. <u>Estimated Redevelopment Project Costs</u> Redevelopment Project Costs are estimated to be approximately \$141,715,919 of which an estimated \$93,829,815 will qualify as Reimbursable Project Costs. The remaining Redevelopment Project Costs will be financed through other sources that could include State of Missouri, Platte County, Developer contributions, Impact Fees and PIAC.

**Amendment No. 5**: Delete the first paragraph of Section IV. D. <u>Economic Activity Taxes</u> and replace the following in lieu thereof:

D. <u>Economic Activity Taxes</u> The projected Economic Activity Taxes available to the Special Allocation Fund, in accordance with the Act, over the duration of the Plan are approximately \$203,394,098 as shown in Exhibit 8 and will be made available upon annual appropriation to pay eligible Redevelopment Project Costs.

**Amendment No. 6**: Insert the following after the first paragraph of Section X. <u>But</u>for TIF:

Public financing of the Project Improvements is identified within the Plan. This assistance is necessary to ensure successful redevelopment of the Redevelopment Area in order to serve the public purpose set forth herein. The purpose of affording public assistance is to accomplish the stated public purpose and not to subsidize otherwise economically viable Project Improvements. In order to ensure that the public assistance being provided does not subsidize an unreasonable level of earnings, the Commission and City must find that the redevelopment area has not been subject to growth and development through investment by private enterprise and would not reasonably be anticipated to be developed without the adoption of tax increment financing. To assist the Commission in making such a finding, the Commission has retained Applied Real Estate Analysis ("AREA"), an independent consultant, to conduct a rate of return analysis.

The consultant's analysis assumed that acceptable investment returns to real estate investors depend on a large number of external factors and the nature of the specific investment, including, the property sector of land use; the life cycle of the property; local market conditions such as new development, major employers and their plans, demographics and the like; the overall risk associated with the property; inflation expectations, and numerous other factors. The best method of determining the need for assistance through Tax Increment Financing is to study

the developer's internal rate of return ("IRR"). The internal rate of return takes into account both the annual income derived as cash flow as well as the potential return from a hypothetical sale of the private improvements at the end of the forecast period.

AREA evaluated the Internal Rate of Return (IRR) with and without Tax Increment Financing assistance for the Redevelopment Area. In addition to using Menard's assumptions for the analysis, AREA also made assumptions regarding the rent that Menard's would have paid a third party developer. Based on Realty Rates Second Quarter survey shows cap rates for anchored retail investments at 5.3% to 13.1% with an average of 10.25%. With TIF assistance, the estimated internal rate of return on equity is 9.21%. Without TIF assistance the Redevelopment Projects would have an estimated internal rate of return of 8.61%.

AREA's report further\_stated that although the difference between with and without TIF is not large, it would prompt Menard's to reexamine the development cost estimates and this would be a likely place to cut costs. With comparatively low returns and without reimbursement for the additional road improvements, a typical developer would be unlikely to contribute an extra \$3 million to road improvements while paying for traffic lane improvements, signalization at the entrance and sewer improvements. Therefore, based on the independent analysis, the Commission and City have found that these Project Improvements have not occurred through investment by private enterprise and would not reasonably be anticipated to occur without the adoption of tax increment financing. Found in Exhibit 14 is evidence of the "But-For Test" analysis conducted for these Project Improvements. The Redevelopment Area has not been subject to growth and development by private enterprise and the Project Improvements within the Redevelopment Area would not reasonably be anticipated to be developed without the adoption of Tax Increment Financing.

The Redevelopment Agreement shall contain provisions whereby the public may participate in the annual cash-on-cash return that is in excess of an acceptable return. The level of participation will be identified in the financial analysis of each Redevelopment Project. In the event that any Project Improvement is refinanced or sold, once all cost of the sale or refinancing have been paid, the private debt retired, the investors' equity investment returned, the public will share in residual proceeds that are in excess of an acceptable return. The annual cash-on-cash and residual sales participation shall be in the same proportion as the proportion of public investment in the completed Project Improvement or group of Project Improvements bears to the total cost of all improvements undertaken by a Redeveloper within the Redevelopment Area. The proceeds of such participation shall be distributed per the discretion of the Commission.

**Amendment No. 7**: Delete Exhibit 1A. of the Plan in its entirety, and insert the revised Exhibit 1A. "Legal Description of the Redevelopment Area" as attached hereto.

- Amendment No. 8: Add the attached "Legal Description of the Redevelopment Project Areas", as a supplement to Exhibit 1B. of the Plan.
- Amendment No. 9: Add the attached "Site Plan", as a supplement to Exhibit 2 of the Plan. "Site Plan".
- Amendment No. 10: Replace Exhibit 6, "Estimated Redevelopment Project Costs", in its entirety, with the revised Exhibit 6 as attached hereto.
- Amendment No. 11: Replace Exhibit 7, "Sources of Funds for All Estimated Redevelopment Project Costs", in its entirety, with the revised Exhibit 7 as attached hereto.
- Amendment No. 12: Add the attached Projected Economic Activity Taxes, as a supplement to Exhibit 8 of the Plan, "Estimated Annual Increase in Assessed Value and Resulting Payments in Lieu of Taxes and Projected Economic Activity Taxes".
- **Amendment No. 13**: Add the attached Cost-Benefit as a supplement to Exhibit 9 of the Plan, "Cost-Benefit Analysis".
- Amendment No. 14: Add the attached Existing Conditions, as a supplement to Exhibit 10 of the Plan, "Existing Conditions".
- **Amendment No. 15**: Add the attached Affidavits as a supplement to Exhibit 13 of the Plan, "Affidavits".
  - **Amendment No. 16:** Insert the attached as Exhibit 14: But-For Analysis.

### Amendment No. 7 & 8

Exhibit 1: Legal Description

### A. LEGAL DESCRIPTION OF THE REDEVELOPMENT AREA

The redevelopment area is an irregularly shaped area generally located Easterly of the centerline of Interstate Highway No. 29; Westerly of N Platte Purchase Drive; Northerly of Missouri State Highway No. 152 in the middle and on the Easterly side; Southerly of Tiffany Springs Parkway on the Westerly side and Southerly of NW 108th on the Easterly side, and Westerly of the Easterly line of Platte County, all located in Kansas City, Platte County, Missouri, being bounded and described as follows:

Beginning at the intersection of the centerline of Tiffany Springs Parkway, as now established, and the centerline of NW Skyview Avenue, as now established; thence Southerly along the centerline of said NW Skyview Avenue to a point on the North line of the Northwest Quarter of Section 6, Township 51 North, Range 33 West; thence continuing Southerly along the centerline of said NW Skyview Avenue a distance of 1423.24 feet to a point perpendicular to the Northwest Corner of Tract 1, Tiffany Springs, Case No. 9831-GP-11, a Planned Development in Kansas City, Platte County, Missouri; thence perpendicular to the last described course a distance of 35.00 feet to the Easterly right-of-way line of Skyview Avenue, said point being the Northwest Corner of Tract 1 as shown on the Amended Preliminary Development Plan of Tiffany Springs, dated May 28, 2003; thence Easterly along the North line of Tract 1 on a curve to the left, having a radius of 1091.00 feet, an arc length of 614.18 feet; thence continuing North along the North line of Tract 1 a distance of 131.66 feet; thence continuing Easterly and Southerly along a curve to the right, being tangent to the last described course, having a radius of 1091.00 feet, and arc length of 2093.48 feet to a point on the South Line of the Northwest Quarter of said Section 6; thence East along said South line and along the North Line of the Southeast Quarter of said Section 6 and the South line of the Northeast Quarter of the said Section 6, to the East Line of said Northeast Quarter; thence North 00°25'39" East along said East line, 52.26 feet to the North right of way line of Tiffany Springs Road and the South line of Tiffany Estates, a subdivision of land in said Kansas City, Northeasterly along the last said two lines along a curve to the left having an initial tangent bearing of North 80°02'34" East with a radius of 660.00 feet, a central angle of 40°00'50" and an arc distance of 460.93 feet; thence North 40°01'40" East, along the last said two lines, 100.03 feet; thence Northeasterly along a curve to the right being tangent to the last described course, with a radius of 740.00 feet, a central angle of 30°35'56" and an arc distance of 395.20 feet to the Northeast corner of said plat; thence South 88°12'46" East along the Easterly extension of the North line of said plat, 1,799.17 feet to the West Line of the Northeast Quarter of Section 5, Township 51 North Range 33 West; thence North 00°24'47" East, along said West line, 1,832.88 feet to the Northeast Corner thereof; thence North 90°00'00" East along the South line of the Southwest Quarter of Section 32, Township 52 North, Range 33 West, 32.75 feet to the Southeast corner thereof; thence North 00°40'23" East, along the East line of said Southwest Quarter 721.33 feet to a point on a line that is the Westerly extension of the North line of Genesis Place Estates; thence

North 89°53'22" East, along said Westerly extension line and along said North plat line 2,629.04 feet to the Northeast corner thereof, said point also being on the East line of the Southeast Quarter of last said Section 32; thence South 00°32'08" West, along said East line, 718.91 feet to the Southeast corner of said Southeast Quarter; thence North 89°57'30" East, along the South line of the Southwest Quarter of Section 33, Township 52 North, Range 33 West, 2,636.08 feet to the Southeast corner of said Southwest Quarter; thence North 00°31'20" East, along the West line of the Southeast Quarter of said Section 33, 2,637.19 feet to the Northwest corner of said Southeast Quarter; thence North 00°15'51" West along the West line of the Northeast Quarter of said Section 33, 2,638.27 feet to the Northwest corner of said Northeast Quarter; thence North 89°37'26" East along the North line of said Northeast Quarter, 2,690.13 feet to the Northeast corner of said Northeast Quarter; thence North 00°32'08" East, along the East line of the Southeast Quarter of Section 28, Township 52 North, Range 33 West, 2,639.75 feet to the Northeast corner of said Southeast Quarter; thence South 89°53'22" East, along the North line of the Fractional Southwest Quarter of Section 27, Township 52 North, Range 33 West (Platte County), 634.01 feet to the Fractional Northeast Quarter of said Section 27 and a point on the East line of Platte County, Missouri and the West line of Clay County, Missouri; thence South 00°35'09" West, along the East line of said Fractional Southwest Quarter and along last said County lines, 2649.60 feet to the Northeast corner of the Fractional Northwest Quarter of Section 34, Township 51 North, Range 33 West; thence South 00°35'09" West, along the East line of said Fractional Northwest Quarter and along last said County lines, 2635.02 feet to a point on the North line of NE 100th Street (Maple Woods Parkway); thence South 89°44'54" West, along said North line, 522.43 feet; thence Northwesterly along said North line, along a curve to the left having an initial tangent bearing of North 42°01'02" West with a radius of 150.00 feet, a central angle of 29°30'51" and an arc distance of 77.27 feet; thence North 89°19'31" West, along said North line, 46.00 feet to the East line of the Northeast Quarter of aforesaid Section 33; thence North 00°36'36" East, 1,156.61 feet; thence South 89°42'31" West, 683.94 feet; thence South 00°15'00" East, 1,298.72 feet to the South line of the Northeast Quarter of said Section 33; thence North 89°45'22" East, along said South line, 664.44 feet to the Northeast corner of the Southeast Quarter of said Section 33; thence South 00°44'42" West, along the East line of said Southeast Quarter and along the centerline of N Platte Purchase Drive, 2,407.26 feet; thence Southerly along said centerline, along a curve to the right being tangent to the last described course with a radius of 351.33 feet, a central angle of 31°42'54" and an arc distance of 194.47 feet; thence South 32°27'36" West, along said centerline, 65.73 feet to the North line of the Fractional Northwest Quarter of Section 3, Township 51 North, Range 33 West (Platte County); thence North 89°44'04" East, along said North line, 743.64 feet to the Northeast corner of said Fractional Northwest Quarter and a point on the East line of Platte County, Missouri and the West line of Clay County, Missouri; thence South 01°44'29" West, along the East line of said fractional Northwest Quarter and along said County lines, 2,540.80 feet to the Northeast corner of the Fractional Southwest Quarter of said Section 3; thence South 00°47'24" West, along the East line of said Fractional Southwest Quarter and along said County lines, 1,106.73 feet to a point on the Northerly right of way line of Missouri State Highway No. 152 as now established; thence South 75°32'42" West, along said Northerly right of way line, 548.22 feet; thence South 47°36'56" West, along said Northerly right of way line, 626.42 feet; thence South

In addition, the Commission has determined that those planning and special service expenses of the Commission which cannot be directly attributable to a particular project are nonetheless reasonable and necessary for the operation of the Commission and are incidental costs to the project. These incidental costs will be recovered by the Commission from the Special Allocation Fund in an amount not to exceed five percent (5%) of the TIF Revenue paid annually into the fund.

### Exhibit 10: Supplement

Existing Conditions Study for the KCI Corridor Redevelopment Area

Prepared by the Tax Increment Financing Commission of Kansas City, Missouri

### May 2012

### I. Introduction

### A. Purpose of the Supplemental Report

The purpose of this supplemental report is to support the finding that the expanded redevelopment area, as described in the Twelfth Amendment to the KCI Corridor TIF Plan, qualifies as a Real Property Tax Increment Allocation Redevelopment Area. This report is intended to show that inclusion of property located within the general boundaries of Old Tiffany Springs Road on the north, Barry Road on the South, and the properties along Green Hills Road on the east and west in Kansas City, Platte County, Missouri does not significantly alter the predominant conditions within the Redevelopment Area and does not change the previous finding that the Redevelopment Area qualifies as an Economic Development Area.

### B. Eligibility Criteria

The Real Property Tax Increment Allocation Redevelopment Act, Missouri Revised Statutes, Section 99.800 et seq., 1986, as amended (the "Act), provides that a Real Property Tax Increment Allocation Redevelopment Plan can be implemented by the Tax Increment Financing Commission if the governing body of a community determines by ordinance, that an area qualifies under the Act as:

- 1. a blighted area;
- 2. a conservation area; or
- 3. an economic development area; and

that the area has not been subject to growth and development through investment by private enterprise and would not reasonably be anticipated to be developed without the adoption of the Redevelopment Plan.

This report is intended to show evidence that the Redevelopment Area qualifies as an Economic Development Area. The Act defines an "Economic Development Area" as follows:

"Any area or portion of an area located within the territorial limits of a municipality, which does not meet the requirements of subdivision (1) and (2) of this section [99.805], and in which the governing body of the municipality finds that redevelopment is in the public interest because it will:

- (a) Discourage commerce, industry or manufacturing from moving their operations to another state; or
  - (b) Result in increased employment in the municipality; or
  - (c) Result in preservation or enhancement of the tax base of the municipality;

### II. Redevelopment Area

### A. General Location

The expanded Redevelopment Area is described as an irregular shaped area generally bounded by of NE 108<sup>th</sup> Street on the north, Barry Road on the South, I-29 on the West, and Platte-Clay County Line on the East (the "Redevelopment Area") in Kansas City, Platte County, Missouri (the "City"). The Twelfth Amendment to the Plan provides for the expansion of the KCI Corridor Redevelopment Area to include an area within the general boundaries of NE 108<sup>th</sup> Street on the north, Missouri 152 on the South, N Ambassador Drive on the West, and Platte-Clay County Line on the East.

### B. Current Land Uses

That portion of the Redevelopment Area added as a part of the Twelfth Amendment consists of approximately 255 acres of land within the general boundaries of NE 108<sup>th</sup> Street on the north, Barry Road on the South, I-29 on the West, and Platte-Clay County Line on the East. Previously, the approved Redevelopment Area consisted of approximately 1,875 acres. At the time of approval of the original plan, the Redevelopment Area lacked infrastructure and street improvements. The thoroughfares that existed within and through the Redevelopment Area consisted of Barry Road and Tiffany Springs Road. There were few streets providing access within the area.

Much of the newly included property is vacant. Most of the arterials are without curbs, gutters and sidewalks. The inclusion of said property does not change the finding that a predominance of the Redevelopment Area meets the criteria of an Economic Development Area as described in the Act.

### C. Proposed Land Uses

The proposed land use for the Redevelopment Area is commercial. It is anticipated that more than 350,000 square feet in new retail and commercial construction will occur.

### III. Recommendations and Other Related City Actions

### A. The Major Street Plan

The Major Street Plan for the City of Kansas City, Missouri was approved by the City Council on September 28, 1989 by Ordinance No. 64073. Within the expanded Redevelopment Area, the Major Street Plan includes NW Old Tiffany Springs Road as a secondary arterial and Barry Road and N Green Hills Road as primary arterials. N Green Hills Road north of 152 and Tiffany Springs Road between Hull Avenue and Line Creek Parkway are both unimproved streets.

### B. KCI Area Plan

The KCI Area Plan was approved by the City Council on June 18, 2009 by Ordinance No. 090395. The Plan is designed to determine a vision for the area that establishes a balance among residents and businesses. Although the area is well served by highways, some areas beyond the interchanges are not served.

### **IV.** Report of Finding

The expansion of the KCI Corridor Redevelopment Area as described in the Twelfth Amendment to the KCI Corridor TIF Plan does not change the qualification of said area as an Economic Development Area under the TIF Act. Even though a substantial portion of land is being added to the existing Redevelopment Area, much of the newly included property is vacant and undeveloped at the time of the report. The inclusion of said property does not change the finding that a predominance of the Redevelopment Area meets the criteria of an Economic Development Area as described in the Act.

The expanded area has not been subject to significant growth or development and is predominately vacant land as it lacks sanitary sewers. Further growth cannot be supported without the construction of the sanitary sewers in this part of the City.

- 1. I, Troy Schulte, am the City Manager of the City of Kansas City, Missouri, a constitutional charter city and political subdivision duly organized and validly existing under the laws of the State of Missouri (the "City) and I am authorized to provide this affidavit on behalf of the City.
- 2. I am charged with the responsibility of submitting an Annual Budget to the Mayor of the City (the "Mayor"), which shall include, at a minimum, the following:
- a. Revenues: An itemized statement of estimated revenues to be realized in cash from all sources for the year which the budget is to cover, together with a comparative statement of estimated cash receipts for the current fiscal year and actual cash receipts for the two fiscal years next preceding the current fiscal year.
- b. <u>Appropriation</u>: An itemized statement of appropriations, which is based, in part, on requests for appropriation from the head of each department under the City Manager, for the ensuing year, with a comparative statement of estimated expenditures for the current fiscal year and actual expenditures for the two fiscal years next preceding the current fiscal year.
- c. <u>Additional information</u>: Such other information as may be required by the Mayor and the City Council of the City (the "Council").
- 3. The Mayor shall transmit to the City Council the Annual Budget prepared by the City Manager, with any comments of the Mayor.
- 4. Upon receipt of the Annual Budget, the Council shall review the Annual Budget to determine the need for the expenditures requested and the adequacy, reliability and propriety of estimated revenues.
- 5. The Council shall, by ordinance, adopt the Annual Budget, which shall itemize the purposes of expenditure by departments, activities, functions, and character classes in not less detail than personal services, contractual services, commodities and capital outlays, and as adopted shall constitute an appropriation for the purposes stated of the sums therein set forth as appropriation and authorization of the amount to be raised by taxation for the purposes of the City, provided that the total amount appropriated shall not in any event exceed the total revenues estimated to be realized in cash during such year, plus any unencumbered balance from previous years.
- 6. The Council has not adopted an Annual Budget that contemplates and no department director has requested or indicated any intent to request an appropriation for the financing of the improvements to Green Hills Road, as contemplated by the Eleventh Amendment to the KCI Corridor Tax Increment Financing Plan.

7. The undersigned acknowledges and agrees that this Affidavit is being materially relied upon by the Tax Increment Financing Commission of Kansas City, Missouri (the "Commission") in connection with its consideration of the Eleventh Amendment to the KCI Corridor Tax Increment Financing Plan and specifically, whether it is reasonable for the Commission to conclude that the improvements to Green Hills Road, as contemplated by the Eleventh Amendment to the KCI Corridor Tax Increment Financing Plan, would not be undertaken without the use of tax increment allocation financing.

The information, statements and averments in this Affidavit are, to the best of my knowledge and belief, true, accurate and complete in all material respects.

Ms. Kellee Madinger Development Services Specialist Economic Development Corporation of Kansas City 1100 Walnut, Suite 1700 Kansas City, Missouri 64106

### Dear Ms. Madinger:

Per our agreement, Applied Real Estate Analysis (AREA), Inc., has reviewed and analyzed the financials for the proposed the Menards project at Missouri Highway 152 and North Green Hills Road in the KCI TIF district. In addition to the approximately \$63.7 million that will be spent onsite to develop the Menards store and additional retail space, an additional \$6.2 million will be spent off-site on a sewer interceptor, traffic signals and 13,430 linear feet of new traffic lanes to North Green Hills Road. The developer is asking that approximately 44.6% (plus TIF commission fees) of these costs (\$2,980,000) be reimbursed from the incremental taxes generated by the project.

When the owner of a property is also the tenant, it is difficult to separate the real estate aspects of the property from the overall operations of the owner/tenant. Thus in analyzing this development, we chose to view the real estate operation from the perspective of a third party developer who is developing and leasing a property to Menards while acting as a land developer for the larger retail development. We made assumptions about the rent Menards would pay for the main retail building, for the unheated space under the overhang and for open yard space. We also assumed that Menards would be responsible for maintaining its own parking and would thus not pay a Common Area Maintenance fee to the developer /manager. For the remainder of the retail site, we assumed that the developer acted as land developer and sold outlots on the same schedule assumed by Menards in its capacity as master developer. We assumed Menards would occupy the building at the beginning of 2013 with 20 year lease that increased by 5% every five years.

We then assumed that the developer sold the property at the end of the 10<sup>th</sup> year at a 6.5% capitalization rate, less 6% cost of sale. The analysis was conducted on an unleveraged basis. A Realty Rates Second Quarter survey show the cap rates for anchored retail investments at 5.3% to 13.1% with an average of 10.25%. Sales prices for retail centers in Kansas City currently have an average cap rate of over 8%. With a single tenant and a long term lease, this investment would be considered low risk and would justify a cap rate at the lower end of the investment range. The TIF analysis assumes the eligible TIF funds will be reimbursed by the end of 2013.

Typically, a large tenant anchoring a retail development receives vary favorable rents. We would normally assume that a large, anchor tenant would pay \$10 to \$12 per square foot rents in the Kansas City market. However, to show the overall potential of this development we also ran the analysis at \$15 and \$18 per square foot and assumed that the developer would charge rent for the unheated space under the overhang that typically shelters the garden store and yard space adjacent to the store. The results of our analysis are shown in the following table.

| Rentable Space                            | Price per sq. ft. (\$) | Price per sq. ft. (\$) | Price per sq. ft. (\$) |
|---|------------------------|------------------------|------------------------|
| Main Retail Bldg                          | 12.00                  | 15.00                  | 18.00                  |
| Area Under Overhang                       | 2.50                   | 3.50                   | 5.00                   |
| Yard Space                                | .65                    | .75                    | 1.00                   |
|   |                        |                        |                        |
| Internal Rate of Return without TIF (IRR) | 8.61%                  | 9.62%                  | 10.69%                 |
| Internal Rate of Return with TIF (IRR)    | 9.21%                  | 10.22%                 | 11.29%                 |

On a project of this size the reimbursement of approximately \$3 million only adds about 60 basis points to the IRR. Even under the most favorable assumptions relative to the rent a developer might receive on the project, the rate of return with the TIF reimbursement would be 11.3%. For a large retail development that would be considered low. Recent surveys by Realty Rates in the Midwest show developers looking for minimum returns of 18.5% and the average is closer to 25%. However, for a project of this nature, in which the anchor tenant has signed a long-term lease and the remainder of the site is being sold off to third parties who will assume the risk for developing and leasing the space, the project would be considered low risk and a return of 10% to 15% would be acceptable to many developers. Thus the "with TIF" IRR range of 9.2% to 11.3% estimated for this development would be at the lower end of the expected range of return for a typical developer.

Without the TIF reimbursement, the rate of return falls to 8.6% to 10.7% in our scenarios. Although the difference at the lower end of our analysis between 8.6% and 9.2% would probably not be enough to scuttle the overall development, it would certainly be enough to prompt a developer to reexamine his development costs estimates.

Because the off-site expenditures do not provide a direct return on investment, they would provide a logical opportunity to cut costs. The developer of the site is already paying for some traffic lane improvements, signalization at the entrance to the property, and sewer improvements necessitated by the development. With comparatively low returns and without reimbursement for the additional road improvements, a typical developer would be unlikely to volunteer to contribute an extra \$3 million to road improvements that are not likely to have a demonstrable impact the performance of the development.

The attached spreadsheet summarizes our calculations.

Sincerely,

APPLIED REAL ESTATE ANALYSIS, INC.
