Execute a 1st Amendment to provide Software Support Services	Routine	To authorize execution of a 1st amendment to a technical support services agreement for software support services at Kansas City Intl Airport.

Details

Reason for Contract
 Authorizing execution of an \$88,875.00 amendment No.1 to an Agreement with Amadeus Airport IT Services, Inc. for proprietary software support services to the Kansas City International Airport for a total contract amount of \$537,629.00.

Discussion (explain all financial aspects of the proposed legislation, including future implications, any direct/indirect costs, specific account numbers, ordinance references, and budget page numbers.)

Project Description
 This contract is to support proprietary software support services at Kansas City International Airport.

Common Use Passenger Processing Systems (CUPPS) is a hardware and software platform. CUPPS allow one carrier application the ability to be run anywhere on any CUPPS. Automated Passport Control (APC), APC is the hardware and software that processes passengers arriving from international destinations. The Federal Inspection Service/ US Custom and Border Protection facility at KCI was completely remodeled per current standards and guidelines. The CUPPS/APC hardware and software is proprietary to Amadeus. The amendment is to include the removal of APC Kiosk in the international/US Customs section of MCI and to install upgraded Biometric Exit CAC

This service is required for MCI to meet US Custom and Border Protection requirements under FAA guidelines and rules.

The term is for four (4) years.
