Chair O'Neill, and Committee Members,
Public transportation works best when it is the default choice for users, not the least best choice.

As a Downtown resident, and Vice President of the RIVER Market Community Association, I see daily how cars parking on the streetcar tracks, or heavy traffic going to the River Market on a market weekend, or going to concerts in Downtown delay or disrupt Streetcar operations. Many of our residents rely upon the Streetcar for their transportation needs. Please vote in support of this ordinance
