Letter of Support - City Inclusive Entrepreneurship Program

Dear Mayor Quinton Lucas,

With sincerity we, the Health Commission of Kansas City, MO, offer our full support for the City Inclusive Entrepreneurship (CIE) program with the National League of Cities.

We commit ourselves to working alongside the KC BizCare office to identify obstacles faced by Hispanic entrepreneurs and small business owners and implementing a program, policy, or practice that promotes accessibility for new businesses and facilitates the growth of existing businesses.

This support is anchored upon prioritizing equitable policies, programs, and practices to support entrepreneurship-led economic growth in our community.

Yours In Service,

Councilwoman Ryana Parks-Shaw  
KC Health Commission, Council Co-Chair
