

Interdepartmental Communication

DATE: July 12, 2012
TO: Marilyn Sanders, City Clerk
FROM: Eric Cary, IT Senior Technician, Information Technology Department *EC*
RE: CID Petition – Oak Barry Center

The City's Geographic Information System (GIS) staff has reviewed and evaluated the petition for the "Oak Barry Center Community Improvement District" to determine the validity of the petition with respect to the boundaries of the district and whether the properties therein are contiguous as required by statute. Based on the investigation by the City's GIS staff, we find that the legal description of the proposed district contained in the petition does close and contain the listed parcels inside the boundary.

Please find enclosed a map of the proposed Community Improvement District.

Enclosure
