---

The West Plaza Neighborhood Association is joining with other nearby associations in the support of Ordinance No. 230579 to enable a comprehensive transportation and infrastructure plan for the Plaza and Westport areas, approximately north of 52<sup>nd</sup> Street, south of 39<sup>th</sup> St, State Line Road on the west to Troost Avenue on the east. We believe that such a transportation and infrastructure plan should be objective, and independent and should look at improving all modes of transportation like walking, biking, and public transportation, not just automobile traffic.

Such a transportation and infrastructure analysis was recommended by the adopted Midtown Plaza Area Plan and is a critical next step in implementing the Midtown Plaza Area Plan.

This neighborhood is joining with other Midtown neighborhoods to comprehensively study current and future transportation infrastructure. We support the adoption of Ordinance No. 230579.

Please fund a comprehensive transportation and infrastructure plan for the Plaza and Westport area.

West Plaza Neighborhood Association
