4250 St. John Ave Rezoning

KANSAS CITY
Planning & Dev

September 3, 2025

Docket # 7.1, 7.2

Request

Area plan amendment
Rezoning without plan

Applicant

Choudhry Sheeraz
Sheeraz LLC

Owner

Connie & Craig Delong

Site Information

Location	4250 St. John Avenue
Area	0.11 Acres
Zoning	R-2.5
Council District	4 th
County	Jackson
School District	Kansas City 33

Surrounding Land Uses

North: Residential, R-2.5
South: Residential, R-2.5
East: Group Living, R-2.5
West: Residential, R-2.5

KC Spirit Playbook Alignment

CD-CPC-2025-00119, 00118 - Not
Applicable.

Land Use Plan

The Truman Plaza Area Plan recommends residential urban low density for this location. The proposed plan has a low alignment with this designation. See Criteria A for more information.

Major Street Plan

St. John Avenue and Kensington Avenue are not identified on the Major Street Plan.

Approval Process

Overview

The applicant seeks to rezone their property from R-2.5 to B3-1 to resolve a zoning violation and allow for the use of general motor vehicle repair.

Existing Conditions

The subject site is on a corner lot in an R-2.5 zoning district. It is currently being used as a motor vehicle repair facility. Multiple buildings have been erected without permits and the overcrowding of cars on the site has spilled over to the sidewalk.

Neighborhood(s)

This site is located within the Indian Mound Neighborhood Association and Northeast Alliance Together (NEAT).

Required Public Engagement

Section 88-505-12, Public Engagement does apply to this request. The applicant hosted a meeting on August 18, 2025. A meeting summary is attached; see Attachment #1.

Controlling + Related Cases

ZDC-2025-0601 - Site in violation for being used for general auto and vehicle storage in an R-2.5 zoned district.

ZDC-2025-0603 - Revocation of CLNU CVLN-1431 for the use of the property as a service station. The use has been abandoned for at least 20 years.

Project Timeline

The applications were filed on July 23, 2025. No scheduling deviations have occurred.

Professional Staff Recommendation

Docket #7.1 Denial
Docket # 7.2 Denial

PLAN REVIEW

Originally, the subject site was a service station, which under the 1983 Kansas City Municipal Code, it was defined as “gasoline and oil, not including motor, body or fender repair work”. A gas station did exist here at the time the Certificate of Legal-Nonconforming Use was issued in 1982 (CVLN-1431), but later on was converted to a motor vehicle repair service without entitlement or permits.

In order to resolve the existing zoning violation, the applicant is asking to rezone to a B3-1, which if approved, would allow for them to apply for a Special Use Permit for motor vehicle repair, general. A Special Use Permit will allow staff to review the building plans and overall site to ensure that the use is in-line with Chapter 88 and the surrounding neighborhood is able to provide their input on this project.

SPECIFIC REVIEW CRITERIA

Rezoning, Zoning and Development Code Map Amendments (88-515-08)

In reviewing and making decisions on proposed zoning map amendments, the City Planning and Development Director, City Plan Commission, and City Council must consider at least the following factors:

A. Conformance with adopted plans and planning policies.

The proposed rezoning does not comply with the adopted plans and planning policies. The future land use designation is Residential Urban Low Density, and the Truman Area Plan would need to be amended for this location to Mixed-Use Neighborhood.

Rezoning from R-2.5 to B3-1 creates spot zoning that would allow for intense uses out of line with the low-density, detached housing nature of this neighborhood. The related area plan amendment changing the future land use from residential urban low density to mixed-use neighborhood would also create a spot FLU designation. While the property has historically been operated as a gas station, the current use is more intense automotive services and outdoor vehicle storage. Should this rezoning move forward, the applicant should:

- Provide high-quality screening, including landscaping and durable fencing.
- Prevent vehicles from parking illegally on the sidewalk- Luke Ranker, Community Planning Division

B. Zoning and use of nearby property.

The properties directly north, south, east, and west are residentially zoned and developed with residential structures. A little further west, the properties are zoned B3-2 and developed with a mixture of residential and commercial structures.

C. Physical character of the area in which the subject property is located.

A majority of the properties in the area are developed with single-family dwellings. The lot sizes vary from 0.09 acres to 0.8 acres.

D. Whether public facilities (infrastructure) and services will be adequate to serve development allowed by the requested zoning map amendment.

Public facilities will be reviewed when the applicant applies for permitting.

E. Suitability of the subject property for the use to which it has been restricted under the existing zoning regulations.

The property originally had a gas station and offered motor oil change services from 1925. In 1982, the property received a certificate of legal nonconforming use to allow the original established use to remain in an R-2.5 zoning district. Since then, the use was illegally converted to an auto repair shop, which is not permitted in the existing zoning district. This has led to the revocation of the existing CLNU. Additionally, the existing buildings seem to have been built without permits.

F. Length of time the subject property has remained vacant as zoned.

The property has not been, and it currently is not vacant.

G. The extent to which approving the rezoning will detrimentally affect nearby properties.

The proposed rezoning will detrimentally affect the nearby properties. If approved, any use permitted under a B3 zoning district will be allowed to operate at this site. Examples include:

drive-thru, car wash, and entertainment venue. Such uses can cause noise and air pollution, and traffic congestion. Staff recommended the applicant to apply for a B3-1 rezoning to maintain low floor area ratio since the surrounding area is residential.

H. The gain, if any, to the public health, safety, and welfare due to denial of the application, as compared to the hardship imposed upon the landowner, if any, as a result of denial of the application.

Rezoning it to a B3-1 would resolve the outstanding zoning violation, but it would create spot zoning and it does not fit with the current context of the neighborhood. If the rezoning were to be denied, the applicant would not be permitted to continue operating the existing use and business. They could not revert the site to a gas station since the CLNU has been revoked. The applicant could only establish a use that is permitted in an R-2.5 zoning district.

CITY PLANNING & DEVELOPMENT

Public Meeting Summary Form

Project Case # CD-CPC-2025-00118 and CD-CPC-2025-00119

Meeting Date: 8/18/2025

Meeting Location: 6000 Wilson Ave, Kansas City, MO 64123

Meeting Time (include start and end time): 6:30PM - 7:45PM

Additional Comments (optional):

We occupied a segment of the monthly Indian Mound Neighborhood Association meeting. We explained to the attendees of our request to rezone the property from residential to commercial and allow for it to be in the mixed-use neighborhood. The majority of the attendees were supportive, although they do have some concerns. Some of the concerns that were raised were on how the new owner will conduct his business, such as disposing the tires, making sure vehicles aren't parked out on the street, accident preventions when the cars are pulling out of the shop, etc. Overall, they want the new owner to be committed to providing a well-maintained business. The owner assured them that they'll do their best to maintain the property well and will work with the neighborhood if there are any concerns. We also pointed out that there's a long list of requirements from the City in order to approve of the special use permit to conduct an auto repair shop. They were very relieved to hear that. We welcomed them to attend the CPC hearing on Sept 3rd from 9AM-12PM to voice their opinions in support or concerns. We also told them that they can write to the city, when our segment concluded, most of the attendees were in favor of the property getting rezoned, or that they're not opposed to it.

RE: Certificate of Legal Noncon-
formance at 4250 St. John

Dear Mr. Mitchell:

Pursuant to Section 65.230, ROKC, 1956, and to the Rules and Regulations of the Board of Zoning Adjustment, procedures have been completed for determination of the status of the above described property.

It is my decision that a Certificate of Legal Nonconformance should be issued for a service station.

This decision will become final if not appealed to the Board of Zoning Adjustment (274-1844) within ten (10) days from that date first written above.

Sincerely,
