Councilmembers –

As you know, we have been asking for assistance to improve the plan review and permitting process at the City. We have faced problems and delays with the process and now it is

affecting a potential large prospect in our KCI 29 Logistics Park. While deciding if they want to locate in Kansas City, they voiced their concerns about getting through the City's process based on all the problems they have heard about. As we compete nationally to attract new projects and investments in the City, we need to remove this hurdle.

We are in strong support of Ordinance 230741 and respectfully request that you vote yes.

Thanks.

AARON SCHMIDT

Senior Vice President, Development and Construction
