## Docket Memo

Ordinance/Resolution #: TMP#6284

Submitted Department/Preparer: Health

Revised 6/10/24

Docket memos are required on all ordinances initiated by a Department Director. More information can be found in [Administrative Regulation \(AR\) 4-1](#).

### Executive Summary

Accepting and approving a one-year contract with the Missouri Department of Health and Senior Services (DHSS) to provide continued funding for Maternal and Child Health (MCH) Services and the Nurse-Family Partnership (NFP) evidence-based home visiting model, consolidating two previously separate grant agreements into a single contract; and appropriating a sum of \$418,168.33 in the Health Grants Fund; designating requisitioning authority; and recognizing this ordinance as having an accelerated effective date.

### Discussion

The Missouri Department of Health and Senior Services (DHSS) has renewed funding to the Health Department to support Maternal and Child Health (MCH) programming and the Nurse-Family Partnership (NFP) evidence-based home visiting model. Previously, these programs were funded through two separate contracts, MCH through DHSS and NFP through the Missouri Department of Elementary and Secondary Education (DESE). For the FY26 cycle, the State has transitioned administration of the home visiting grant to DHSS and combined both funding streams into a single contract.

The combined contract continues to support core MCH system-building activities such as community partnerships and health education. The contract also provides support for the NFP program, which pairs registered nurses with first-time parents from early pregnancy through their child's second birthday. Through regular home visits, NFP nurses provide individualized health education, support healthy prenatal behaviors, promote secure parent-child attachment, and connect families to medical care and community resources, contributing to improved birth outcomes, enhanced early childhood development, and long-term family stability.

Approval of this ordinance ensures seamless continuation of these services under the new unified contract. The accelerated effective date is requested to prevent any disruption in care for families currently enrolled.
