Discussion Project Justification A new procurement contract mechanism is needed to support the revised Missouri State Operating Permit (MO-0049531 [Permit]) for the Birmingham Wastewater Treatment Plant, which has a requirement for biosolids removal within the holding cells to be land applied or removed routinely (with the total volume produced to be removed in a period not to exceed five years). This contract will provide for construction of temporary structures to facilitate biosolids removal, dewatering, stabilization (if necessary), transportation and land application at the Birmingham Land Application Site (BLAS). Contract Description Work to be performed on this contract is at the Birmingham Wastewater Treatment Plant, located at 10801 N.E. 28th Street, Kansas City, MO 64161. There are five holding cells located at Birmingham Wastewater Treatment Plant that have 25,000,000 gallons of biosolids that are required to be land applied or otherwise disposed of. Additional biosolids from Birmingham generated during the execution of this project may also be treated as part of this work. The biosolids will be removed as liquid biosolids and transported off-site for land application. The maximum obligation of this procurement contract is \$2,400,000.00. The term of this contract is for two years. This contract has a one successive two-year option to renew. An additional ordinance will be needed to approve the renewal.		<table><tr><td>Opponents</td><td>Groups or Individuals Hodges Farms & Dredging Reason for Opposition Hodges Farms & Dredging is protesting that they were considered non-responsive due to not filling out the Unit Price Bid Form. Contract Solicitation
The construction project was advertised in accordance with the City's requirements. Public bids were opened on August 2, 2022 with four (4) bidders responding: Synagro, Ace Pipe Cleaning, Inc., Hodges Farms and Dredging, and Denali Water Solutions.

Upon review of the submissions, the bid response from Hodges Farms & Dredging was deemed to be non-responsive due to Unit Price Bid Form not being completed. Their 48-hour paperwork was also not submitted within the required timeframe and was past its' due date.

Denali Water Solutions was considered non-responsive due to not acknowledging the second and third addenda.

Ace Pipe Cleaning, Inc. was selected as the lowest, responsible and responsive bid. Ace Pipe Cleaning, Inc. submitted subcontracting goals of 1% MBE and 1% WBE for this project, which meets the goals assigned by CREO KC.

Grant/Loan Funding
N/A

Civil Rights and Equal Opportunity Department (CREO KC) Approval
Subcontracting goals on this procurement project are 1% MBE and 1% WBE. Subcontracting information was submitted to CREO KC for review and determination on September 9, 2022, and was approved on September 21, 2022 with 1% MBE and 1% WBE participation.

Fairness in Construction Board
There is no appeal on this contract pending before the Fairness in Construction Board at this time.
