Description of Contract (Provide Details):

This project will upgrade portions of the water distribution system in the northland to support approved developments in district 1. This project will have construction components that are transmission mains, water facilities, and storage tanks. The programmatic goals for construction for transmission mains and facilities of 11% MBE and 11% WBE should be reasonable for these construction scopes in this progressive design-build project. We don't have a cost breakdown at this time because the design-builder will be developing the precise improvements.

Pursuant to RSMo. Section 610.021(11) & (12) documents related to bids will not be made available until bids are completed.

This document is submitted with all available facts. Intentionally falsifying this document or omitting pertinent facts is grounds for disciplinary action pursuant to KCMO Human Resources Rules & Policy Manual (eff. August 4, 2014).
