Ordinance/Resolution #: 250380

Submitted Department/Preparer: City Planning

Revised 6/10/24

Docket memos are required on all ordinances initiated by a Department Director. More information can be found in [Administrative Regulation \(AR\) 4-1](#).

Executive Summary

Rezoning an area of about 18.2 acres generally located at 3808 E 78th St from district M1-5, M3-5, and R-6 to District MPD and approving a development plan, with associated preliminary plat, to allow for a demolition debris landfill to continue operation on the existing site. CD-CPC-2024-00041

Discussion

The MPD, Master Planned Development, district is intended to accommodate development that may be difficult, if not impossible, to carry out under applicable zoning district standards. A rezoning to MPD, with an associated Development Plan, was suggested by City Staff so the property owner could bring the property into compliance with municipal regulations and protect City interests through conditions attached to the case, which a standard rezoning application could not provide. An unpermitted demolition debris landfill, which has expanded over the years, occupies the subject site.

City Council Key Points

- Split zoned site = M1-5 (Industrial), M3-5 (Industrial), R-6 (Residential)
- Rezoning to MPD (Master Planned Development) with associated development plan and preliminary plat.
- Existing use = the storage of demolition debris (mostly rock, concrete, and asphalt), the crushing of those materials, office for employees, and storage of post-production materials.
- The proposed MPD abates zoning violations by permitting a demolition debris landfill to operate on the subject site.
- Public testimony in opposition to the project was received. They raised concerns over the location of the existing use, the expansion without proper approvals, and proximity to residential properties.
- City Plan Commission = Approval, Subject to Conditions.
