88-327 COMMUNICATIONS SERVICE ESTABLISHMENTS

88-327-01 PURPOSE AND APPLICABILITY

The purpose of these standards is to permit communications service establishments in more districts due to their limited impact on adjacent properties while also acknowledging that such uses may negatively impact pedestrian-oriented areas of the city due to the relative lack of pedestrian traffic they generate. These standards allow the uses in more districts when the impact is minimized.

88-327-02 IN DISTRICT R-80

1. Communications service establishments with a gross floor area of more than 8,000 square feet but less than 40,000 square feet shall require approval of a special use permit.
2. Communications service establishment with a gross floor area of 40,000 square feet or more shall require review and approval of a development plan.

88-327-03 IN B & D DISTRICTS

1. Communications service establishments shall not occupy the ground floor of any building with street frontage. For the purposes of this section, a building with street frontage is any building located within 50 feet of a street right-of-way line.
2. Communications service establishments with a gross floor area of more than 8,000 square feet but less than 40,000 square feet shall require review and approval of a special use permit.
3. Communications service establishments with a gross floor area of 40,000 square feet or more shall require review and approval of a development plan.

Section 3. That the Council finds and declares before taking any action on the proposed amendment hereinabove, all public notices and hearings required by law have been given and had.

I hereby certify that as required by Chapter 88, Code of Ordinances, the forgoing ordinance was duly advertised and public hearings were held.
