ORDINANCE NO. 241052

Approving a development plan on about 10 acres in District B3-2 generally located at the northeast corner of N.W. 68th Street and Highway 169 to allow for a major amendment to an approved development plan to permit general motor vehicle repair. (CD-CPC-2024-00137)

BE IT ORDAINED BY THE COUNCIL OF KANSAS CITY:

Section A. That a development plan in District B3-2 (Community Business (Dash 2)) generally located at the northeast corner of N.W. 68th Street and Highway 169, and more specifically described as follows:

Beg nw cor Lt 1 Oak Hill Plaza West 1st Plat, sly 576.64, e 212.48, s 48.61, wly 493.8 to el 169 Hwy, nly alng row to sl Hamilton Heights West, e to pob and Oak Hill Plaza West 1st Plat, Lot 1 and Track A.

is hereby approved, subject to the following conditions:

1. The developer shall screen all roof and/or ground mounted mechanical and utility equipment in compliance with 88-425-08.
2. The developer shall submit an affidavit, completed by an ISA certified arborist, an SAF certified forester, a professional engineer, or a landscape architect licensed in the State of Missouri, verifying that all trees preserved and all trees planted to meet mitigation required of the approved plan, whichever is applicable, has been installed or preserved in accordance with the plan and is healthy prior to a certificate of occupancy.
3. Prior to recording the final plat the developer shall upload and secure approval of a street tree planting plan from the City Forester.
4. The developer shall submit an affidavit, completed by a landscape architect licensed in the State of Missouri, verifying that all landscaping required of the approved plan has been installed in accordance with the plan and is healthy prior to a certificate of occupancy.
5. All signage shall conform to 88-445 and shall require a sign permit prior to installation.

6. Prior to issuance of the certificate of occupancy for each lot within the plat, the developer shall submit an affidavit, completed by a landscape architect licensed in the State of Missouri, verifying that street trees have been installed in accordance with the approved street tree planting plan and are healthy.
7. The developer shall submit an affidavit, prepared by an engineer licensed in the State of Missouri, verifying that all outdoor lighting has been installed in accordance with approved plans and that lighting levels do not exceed that shown on the approved lighting plan at the property lines prior to a certificate of occupancy.
8. Address must be determined, and location should be identified/shown on plan elevations prior to approval of a building permit. Address labeling should be on contrast compared to the building material and easily read from the main roadway nearby.
9. The developer shall pay impact fees as required by Chapter 39 of the City's Code of Ordinances, as required by the Land Development Division.
10. The developer shall ensure that water and fire service lines should meet current Water Services Department rules and regulations prior to a certificate of occupancy.
11. The developer shall have a water flow test done to ensure there is adequate water pressure to serve the development.
12. The current plan does not show grading in the existing water main easement. Should that change in the future any change in grade in the transmission main easement will require approval by the Kansas City Water Services Director.
13. The developer shall submit a detailed micro storm drainage analysis from a Missouri-licensed civil engineer to the Kansas City Water Services Department showing compliance with the current, approved macro study on file with the City and with current adopted standards in effect at the time of submission, including water quality BMP's, prior to approval and issuance of any building permits to construct improvements on the site or prior to recording the plat, whichever occurs first. The developer shall verify and/or improve downstream conveyance systems or address solutions for impacted properties due to flow contributions from the site; and the developer shall construct any other improvements as required by the Kansas City Water Services Department as necessary to mitigate impacts from rate, volume, and quality of runoff from each proposed phase.
14. The developer shall obtain the executed and recorded City approved grading, temporary construction, drainage/sewer, or any other necessary easements from the abutting property owner(s) that may be required prior to submitting any public improvements crossing properties not controlled by the developer and include

said document(s) within the public improvement applications submitted for permitting.

15. The developer shall submit plans for grading, siltation, and erosion control to the Kansas City Water Services Department for review and acceptance and secure a site disturbance permit for any proposed disturbance area equal to one acre or more prior to beginning any construction activities.
16. The developer shall grant a BMP easement to the City as required by the Kansas City Water Services Department, prior to recording the plat or issuance of any building permits.
17. The developer shall submit an analysis to verify adequate capacity of the existing sewer system as required by the Kansas City Water Services Department prior to issuance of a building permit to connect the private system to the public sewer main and depending on adequacy of the receiving system, make other improvements as may be required.
18. The developer shall secure permits to extend public sanitary and storm water conveyance systems to serve all proposed lots within the development and determine adequacy of receiving systems as required by the Kansas City Water Services Department, prior to recording the plat or issuance of a building permit, whichever occurs first.
19. The developer shall enter into a covenant agreement for the maintenance of any storm water detention area tracts as required by the Kansas City Water Services Department, prior to recording the plat.
20. The developer shall replat to expand the limits of Tract A to encompass the entire storm water detention basin currently located on Tract A of Oak Hill Plaza West First Plat. The covenant to maintain storm water detention facilities must be amended to reflect the new limits of Tract A and to include all lots served by the detention facility.

A copy of said development plan is on file in the office of the City Clerk with this ordinance and is made a part hereof.

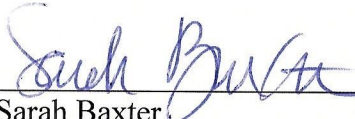

Section B. That the Council finds and declares that before taking any action on the proposed amendment and development plan hereinabove, all public notices and hearings required by the Zoning and Development Code have been given and had.

---

I hereby certify that as required by Chapter 88, Code of Ordinances, the foregoing ordinance was duly advertised and public hearings were held.
