

WeC'ò'deKC

CODING A PIPELINE OF  FUTURE-READY PROFESSIONALS

WeCode is a non-profit social entity providing pathways to career success for youth, high school students and young adults in under-resourced communities through tech skills, mentorship, and project-based work experiences.

WORKFORCE DEVELOPMENT

EARN WHILE YOU LEARN

From cradle to careers. Our pipeline start youth as early as 7 years old, develop them throughout high school and support post high school and young adults. Our collaborations with KC Scholars provide youth scholarships, stipends and internships with business partners such as the State of KS, T-Mobile, GEHA, Garmin and a community colleges to earn stackable credit hours.

Technical Training

Core technical skills

- * Scratch
- * JavaScript
- * HTML
- * CSS
- * Python
- * Cyber Security*

**Taught as required for the client project*

Leadership Development

- * Presentations from industry leaders
- * Leadership curriculum builds emotional intelligence, creativity, problem solving skills and critical thinking

Project-Based Learning

- * Work in teams responding to industry partner's real-world need while earning a stipend.
- * Develop projects in sprints from idea to formal presentation

76% of Blacks and 62% of Hispanics could get shut out or be under-prepared for 86% of jobs in the US by 2045.

If this digital racial gap is not addressed, in one generation alone, digitization could render the country's minorities into an unemployment abyss.
