

# City of Kansas City, Missouri

## Docket Memo

Ordinance/Resolution #: 240514

Submitted Department/Preparer: Health

Revised 11/01/23

Docket memos are required on all ordinances initiated by a Department Director. More information can be found in [Administrative Regulation \(AR\) 4-1](#).

### Executive Summary

Accepting and approving a grant award from the US Department of Justice to provide funding for a community care program to support youth success; estimating and appropriating a total of \$450,000.00 in the Health Grants Fund; designating requisitioning authority; and recognizing this ordinance as having an accelerated effective date.

### Discussion

There are more than 7,500 violent crimes committed in Kansas City annually and youth in Kansas City, particularly Jackson County, are significantly impacted by this disproportionate violent crime rate. On average, more than 590 juveniles aged 10 to 17 are arrested by the Kansas City Police Department and referred to Jackson County Family Court each year. This equates to a juvenile crime rate of 1,967 per 100,000 youth ages 10 to 17, more than 60% higher than the national rate. The funds will support research and planning of a continuum of care that is designed to identify youth at highest risk and deliver a coordinated schedule of personalized services that deter them from criminal behavior and redirect them towards positive life outcomes.

The City of Kansas City, Missouri (KCMO) Health Department's Aim4Peace Program (A4P) has been working to reduce violence in KCMO the east patrol using the Cure Violence Model for 15 years. Aim4Peace has achieved success, in designated areas, in reducing shootings and homicides with its violence case management and mediation services, particularly with high risk individuals. Aim4Peace programming aims to remove barriers to access and opportunity for the targeted BIPOC communities served. Aim4Peace program will be the support to develop the Planning Council and see this project through.
