Hello members of the Neighborhood Planning and Development Committee,

I have lived in Volker for 20 years and want to voice my support for the proposed parking code updates. Removing parking minimums is an important step that will help encourage more efficient land use, reduce barriers to small business development, and support a wider range of housing and business options. I am urging you to adopt these standards and take an important step in modernizing Kansas City development requirements.

Thank you for considering these improvements.

Sincerely,
Colleen Lafferty
