- Six responses:
 - DLR Group
 - Draw Architecture
 - h|d Design
 - Multistudio
 - SFS Architecture
 - Treanor
- Multistudio selected as most qualified

Purpose of the CRC

- Will successfully transition pre- or post-booking, justice-involved individuals into the community.
- Will establish a centralized, coordinated, and seamless continuum of care, treatment, and services in collaboration with private and public social services.
- The facility will house City-services, non-profit organizations, and healthcare providers working together to provide wraparound services.
- By housing a comprehensive array of services and supports in one location, the goal is to remove many of the barriers and complexities of navigating traditional community mental health and social services.
