55th & Bennington Ave. Phase 2 Sanitary Sewer
ATTACHMENT A
SCOPE OF SERVICES

Introduction:

The City of Kansas, Missouri is in the process of eliminating areas where public sanitary sewers are not available to its residents. To aid in this process, the City has received funding from the Missouri Department of Natural Resources' State Revolving Fund. This fund, supported by the Environmental Protection Agency (EPA), will be used to finance about fifty percent of the sanitary sewer construction costs.

One of the areas requiring the City's immediate attention is the residential neighborhood in and around 55th Street and Bennington Avenue. Sampling in the area shows higher than acceptable of E. coli bacteria related to human waste. This is a potential health risk to the residents. While considered in the former Sewer District 719 and located just to the west Blue Parkway, the area survives primarily on septic tanks with no access to public sanitary sewer.

In response to the problem, the City has split Sewer District 719 into smaller districts. These are now Sewer Districts 11040, 11041, & 11042 along with a smaller Sewer District 719. Sewer District 11042, where the sampling has taken place, is the worst area of the neighborhood and will receive the most attention first. Connections to proposed sanitary sewer system for existing houses in this district will be available, while main extensions will be extended to the other three districts.

In 2007, Taliaferro & Browne, Inc., prepared sewer construction plans for Sewer District 11042. In 2013 the plans were updated with the addition of a 40' line across Cambridge Ave.

The current project calls for updating the Sewer Plans as prepared in 2013.

A. Construction Plan Updates:

Review and/or update: topography, utility information (re-issue Public Improvement Notice 1), re-establish survey controls, survey field check, update topography, review and update the plans, update title sheet, update Engineer Opinion of Probable Cost Estimate, Update Technical Specifications, Follow up with Utility Owners (Public Improvements 2 through 4), update easement and assessment plans, update the current plans, create/develop 95% documents for review, prepare 100% construction plans, specifications, and documents. Provide bidding assistance, construction phase services, and preparation of as-built mylar drawings for Infill sanitary sewer extension in the vicinity of 55th St. and Bennington Ave.

1. Final Bid Documents

- a. Schedule Kick-off Meeting to review scope, schedule of deliverables, and propose updates for the current plans and other documents with Water Service Department's Staff; issue meeting agenda and meeting minutes following each meeting.

- (1) Modify drawings and specifications to include any update to notes, update title sheet, signature page and other directly related revisions due to recent updates or changes in requirements or standards.
