Description of work:

This contract will include all of the labor and materials necessary to install a new grit removal system at the Birmingham Wastewater Treatment Plant. Work will include a grit vortex system, two grit pumps, and one grit classifier. Two new sewage fine mechanical screens will be installed to remove debris from the sewage stream, which will be carried away by two new shaftless screw conveyors to a dumpster. Most equipment will be enclosed in a new building. Electrical equipment, and HVAC will be upgraded throughout the plant. Work will also include programming to allow the new system to work together.

cc: Isaac Garlington, Project Manager
