

Dear Public Testimony,

I'm writing to ask you to oppose Ordinance 250382. I regularly use the bike paths in KC for commuting and would like to see continued growth of bikeable areas, new lanes, to support multi modal transportation options. Public transit, trolley, bike lanes and cycle tracks, ride share bikes are all part of the solution and are growing. Please don't let our current momentum be abandoned.

Regards,
Scott Klamm
