

City of Kansas City, Missouri

Docket Memo

Ordinance/Resolution #: 250036

Submitted Department/Preparer: City Planning

Revised 6/10/24

Docket memos are required on all ordinances initiated by a Department Director. More information can be found in [Administrative Regulation \(AR\) 4-1](#).

Executive Summary

Accepting the recommendations of the Health Sciences Community Improvement District Advisory Committee and adopting the housing improvements funds program.

Discussion

This resolution will accept the recommendations of the Health Sciences CID Advisory Committee regarding the use of Redirected EATS for the CID's Housing Improvements Funds Program. This resolution would not direct additional funds to the CID. The EATS are already being redirected. This would simply accept the recommendations as to the use of the redirected EATS.

The existing cooperative agreement between the Health Sciences CID and the City redirects EATS to the CID. The cooperative agreement established a CID Advisory Committee which is made up of two City Councilmembers and multiple adjacent neighborhood representatives. In order to use the Redirected EATS, the Advisory Committee must make recommendations to the City Council and CID Board of Directors which need to be adopted by said bodies. Per the agreement, not less than 30% of the Redirected EATS shall go to the Housing Improvements, and the Infrastructure Improvements will receive up to 70% of the Redirected EATS. The agreement states the Housing Improvements Funds Program will be (a) investment in residential housing related improvements that directly improve health and quality of life within the Benefit District; and (b) other Programs agreed upon by the City and the Health Sciences CID.

The Advisory Committee is proposing to use \$53,263 of the Redirected EATS for two initial projects for the Housing Improvements Funds Program. The program will work with the KCMO Health Department and Children's Mercy Hospital on two residential homes in the CID Benefit District. These homes are owner occupied, have children living in the home under age 6 and the occupants meet income qualifications at 92% and 80% of median income according to HUD Income Guidelines. Proposed housing improvements are related to lead paint hazards, cleaning duct work, installing smoke

and carbon monoxide detectors and ventilation work. Both projects are supported by EPA and HUD guidelines for healthy homes.

Once the projects of this proposed program are completed, the CID and its Advisory Committee will be required to make further recommendations to the City Council for the future of its program and respective projects.

Fiscal Impact

1. Is this legislation included in the adopted budget? ☐ Yes ☒ No
2. What is the funding source?
N/A
3. How does the legislation affect the current fiscal year?
None.
4. Does the legislation have a fiscal impact in future fiscal years? Please notate the difference between one-time and recurring costs.
No
5. Does the legislation generate revenue, leverage outside funding, or deliver a return on investment?
No

Office of Management and Budget Review

(OMB Staff will complete this section.)

1. This legislation is supported by the general fund. ☐ Yes ☒ No
2. This fund has a structural imbalance. ☐ Yes ☒ No
3. Account string has been verified/confirmed. ☐ Yes ☒ No
