Subject: I POSE AGAINST MIGRANTS TO KANSAS CITY
Date: Tuesday, April 23, 2024 1:52:43 PM

EXTERNAL: This email originated from outside the kcmo.org organization. Use caution and examine the sender address before replying or clicking links.

The resolution is scheduled to be heard at the City's Legal Review Committee Tuesday April 23 at 1:30 PM. You can participate by Emailing the Mayor and City Council letting them know that you support enforcing state law and not jeopardizing state services in Kansas City. You can do this by sending a simple email to cc1@kcmo.org and public.testimony@kcmo.org with the subject of "Resolution 240412" Dear Mayor Lucas and members of the City Council, We strongly encourage you to support Resolution 240412 which codifies Kansas City's compliance with state law with regard to sanctuary cities.\

I feel there is a better solution to filling the jobs here in this area. There needs to be community awareness and rebuilding. People feel fear of retaliation and are made to be guilted into leaving their jobs. There is a constant statement that land was stolen which we are not those people. The people in the day were given land to work from. Without the Farmers and the labor workers there would be no America as we know it. This all being said, I feel that if people were given encouragement and rehabilitation, along with working as a team...things will look forward to working even in a dirty job. Just as the Military, they work as a team even during their workout along with digging holes. Our service men and women work together because it is like a family...a team. But, with the constant beat downs about the lands stolen and the slavery needs to stop. We are not those people...that is then...this is now!

And, I am not a religious person but history has shown that during the middle/dark ages...Christianity was needed to put a stop to certain behaviors that would have prevented us from achieving this far in the human factor.

Again, I pose against migrants coming to this area. That is another subject. Other countries have different living standards and crime along with tracking crime rates. There is no way to know the complete history. For example, the FDA laws are different...the EPA standards are almost little to none. There has always been a concern of the environment, what happen to going green...the trees are disappearing at an alarming rate in the middle plains of the USA. The Mayor took land from the Sultany Group to bring a water/sewage treatment to the Platte County area. FYI the Martin Marriate mine created a so-called earthquake that turned out to be an explosion. Are there concerns of contamination into the water or damage to the mines?

Solution to the jobs that are needed. Educate the schools, build up the people who now live

in fear of going out and dealing with hostile changes. Group people who work well together by teaming them up. Sounds like a silly situation but why not petition peoples thoughts...get the truth if you really care about this area and the growth.
