I would like my email below to go on record as supporting ordinance #240434. Housing in KCMO is very important to Pella Products of Kansas City and our team members.

Subject: Please pass Ordinance #240434

Kansas City, MO is an important city to our metro area when it comes to new construction. As a business that has been serving this metro area for over 40 years I cannot begin to think about where our business would be today if KCMO had performed at the level of starts it is currently performing at for the past 40 years. Some of the most impressive projects we have been a part of have been built in KCMO.

Pella Windows and Doors has been a pioneer in innovation and is consistently an Energy Star partner. Pella offers products to help meet the energy codes that have been passed by KCMO. We are eager to help builders meet those codes.

We very much support the passing of Ordinance #240434 to help to get the permits issued so construction can begin to launch in KCMO. My team of 49 team members here at Pella Products of Kansas City very much want to provide our products and services to the homes in KCMO.

Thank you,

John Vance
President | Owner

Proud to say
Pella is the most preferred window brand by homeowners in Kansas City.*

*Based on a 2022 study of leading window brands by homeowners.
