Dear Council and Decisionmakers,

I am writing to give my full support to Ordinance No. 250637 for native plant landscaping and yard (turf grass) conversion to native plants to no longer be counted as rank weeds or a violation. I believe that the more micro-gardens that promote biodiversity, the more native shade trees and the more unique permeable surfaces that we can produce in the built environment will aid us significantly in mitigating the effects of Climate Change. Climate change is here and we should be ready to find ways to cool our city.

Best,

Sarah Sommerkamp (she/her/hers)
