April 2, 2024

Project Name
Mandolin Creek

Docket #4

Request

4.1. CD-CPC-2024-00007
Area Plan Amendment

4.2 CD-CPC-2024-00008
Rezoning

4.3 CD-CPC-2024-00009
Development Plan

Applicant

Lindsay Vogt
RL Buford

Owner

Bill Mann
Mann Company

Location 3701 NW 100th St
Area About 42 acres
Zoning R-6
Council District 1st
County Platte
School District Platte County

Surrounding Land Uses

North: Undeveloped, Zoned AG-R
South: Genesis Residential, Zoned R-7.5
East: Single Unit Residential, Zoned AG-R
West: Future Twin Creeks Dev., Zoned MPD

KC Spirit Playbook Alignment

Case submitted prior to KC Spirit Review

Land Use Plan

The KCIA Area Plan recommends Residential Low Density uses for the subject property.

Major Street Plan

The City's Major Street Plan identifies NW 100th St. as a Parkway with 4 lanes at this location.

APPROVAL PROCESS

PROJECT TIMELINE

The application for the subject request was filed on January 29, 2024. Scheduling deviations from 2024 Cycle 3.2 have occurred.

- Inspection of Tree Canopy needed after tree removal.

NEIGHBORHOOD AND CIVIC ORGANIZATIONS NOTIFIED

The subject site is located within the KCI Neighborhood Association.

REQUIRED PUBLIC ENGAGEMENT

Public engagement as required by 88-505-12 does apply to this request. Applicant hosted a meeting on March 11, 2024. A summary of the meeting is attached to the staff report, see Attachment #3.

EXISTING CONDITIONS

The subject site is currently undeveloped. To the south is the existing Genesis Place Estates. Land to the north and west is undeveloped currently. An approved MPD Plan for Tiffany Greens is to east which proposes single family residential. There is a regulated stream on the eastern boundary of the subject site.

SUMMARY OF REQUEST + KEY POINTS

The applicant is seeking approval of a Rezoning in current District AG-R (Agriculture) to proposed District R-6 Open Space (Residential), amending the KCIA Area Plan from Residential Low Density to Residential Medium Density, and approving a Development Plan on about 42 acres generally located on the south side of Northwest 100th Street approximately 1300 feet east of Green Hills Road, allowing for the creation of 136 lots for single unit homes.

CONTROLLING CASE

There is no controlling case for this site.

PROFESSIONAL STAFF RECOMMENDATION

Docket #4.1 Recommendation: **Approval**
Docket #4.2 Recommendation: **Approval**
Docket #4.3 Recommendation: **Approval Subject to Conditions**

REZONING PLAN REVIEW

The applicant is requesting to rezone a contiguous 42-acre land parcel currently designated as District AG-R (Agricultural Residential) to District R-6 (Residential) Open Space. This rezoning initiative is intended to facilitate the development of 136 single-unit residential dwellings. Additionally, a companion Area Plan Amendment is proposed to revise the future land use designation within the KCIA (Kansas City International Airport) Area Plan, transitioning it from Residential Low Density to Residential Medium Density.

The proposed rezoning action linked with the associated Development Plan, outlining the detailed strategy for the development of the residential community which is currently comprised of a vacant single parcel of land.

SPECIFIC REVIEW CRITERIA- REZONING**Zoning and Development Code Map Amendments, REZONINGS (88-515-08)**

In reviewing and making decisions on proposed zoning map amendments, the City Planning and Development Director, City Plan Commission, and City Council must consider at least the following factors:

A. Conformance with adopted plans and planning policies;

The KCIA Area Plan recommends Residential Low Density land use for this location. This proposal is not consistent with the future land use plan thus an Area Plan Amendment is required to Residential Medium Density.

B. Zoning and use of nearby property;

Nearby properties are zoned R-7.5 to the south within the Genesis Residential Development. Land to the west is zoned MPD but allows for single until homes. Land to the north and east is zoned AG-R and is developed with low density residential homes.

C. Physical character of the area in which the subject property is located;

Adjacent properties consist mainly of single unit homes. The proposed rezoning is not expected to change the physical character of the area.

D. Whether public facilities (infrastructure) and services will be adequate to serve development allowed by the requested zoning map amendment;

There is an existing public infrastructure serving the site. Utilities and infrastructure will be brought to City Standards with the accompanying development.

E. Suitability of the subject property for the use to which it has been restricted under the existing zoning regulations;

The current zoning designation is AG-R. The proposed rezoning will change the zoning to R-6 Open Space. This zoning district requires the conservation of land in exchange for flexible lot sizes. This allows for the stream buffer and other tracts of land within the development to be preserved.

F. Length of time the subject property has remained vacant as zoned;

The subject site has never been developed.

G. The extent to which approving the rezoning will detrimentally affect nearby properties; and

The rezoning is not expected to detrimentally affect nearby properties.

H. The gain, if any, to the public health, safety, and welfare due to denial of the application, as compared to the hardship imposed upon the landowner, if any, as a result of denial of the application.

A denial of the application will not provide any gain to the public health, safety, and welfare.

DEVELOPMENT PLAN REVIEW

The applicant seeks approval for a Development Plan within the proposed District R-6 Open Space, encompassing approximately 42 acres situated on the south side of Northwest 100th Street, approximately 1300 feet east of Green Hills Road.

The proposed development aims to subdivide the existing unplatted 42-acre parcel of land into 136 lots. Compliance with the R-6 Open Space Zoning District necessitates lot sizes of at least 5,000 square feet. The proposed lots vary in size from approximately 5,600 square feet to 10,000 square feet, with an average lot size of around 6,310 square feet. Additionally, adherence to the zoning district's requirement of a 45-foot lot width is ensured, with the developer proposing a minimum lot width of 45 feet. No deviations to setbacks from the R-6 Open Space District are sought by the developer.

Access to the site will be facilitated through an existing connection to the south on North Adrian Place, supplemented by a new drive along Northwest 100th Street to the north. Pedestrian connections will be provided to the regional trail which is proposed to run along Second Creek which is on the eastern side of the property. Additionally, sidewalks within the development have been provided to Public Works Standards. Northeast 100th Street is on the Major Street Plan as an extension of Northwest Tiffany Springs Parkway. The applicant is not required to provide half street improvements for this stretch of the street; however, they must pay impact fees which will be used for future road improvements.

Finalization of landscaping for tracts within the development will occur through a project plan during the Final Platting phase. Among the species proposed for inclusion within the tracts are Red Oak, Pacific Sunset Maple, Eastern Redbud, and Japanese Maple.

WAIVERS AND DEVIATIONS

The applicant is not seeking any waivers or deviations.

DEVELOPMENT PLAN ANALYSIS

Standards	Applies	Meets	More Information
Lot and Building Standards (88-110)	Yes	Yes	Plan is in conformance with the R-6 Open Space standards
Accessory or Use- Specific Standards (88-305 – 385)	No		
Boulevard and Parkway Standards (88-323)	Yes	Yes	NW 100 th Street is a parkway which will be constructed at a later time. Homes adjacent to the parkway will be buffered with a 45 ft Landscape Buffer
Parkland Dedication (88-408)	Yes	Yes	Providing 3.02 acres of dedication
Tree Preservation and Protection (88-424)	Yes	Yes	Provided over minimum requirement for tree preservation.
Parking and Loading Standards (88-420)	Yes	Yes	Constructed homes must conform to 88-425
Landscape and Screening Standards (88-425)	Yes	Yes	Project Plans at time of Final Plat will ensure that tracts are properly screened.
Outdoor Lighting Standards (88-430)	No		Public Street lights will be installed.
Sign Standards (88-445)	No		All signage must be approved through a separate Permit
Pedestrian Standards (88-450)	Yes	Yes	Applicant has provided sidewalks on both sides of the street as required by Public Work standards. Additionally, connections to the regional trail are provided.

SPECIFIC REVIEW CRITERIA- DEVELOPMENT PLAN**DEVELOPMENT PLANS, Project Plan, or Site Plan (88-516-05)**

In order to be approved, a development plan, project plan, or site plan must comply with all of the following criteria:

- A. The plan must comply with all standards of the Zoning and Development Code and all other applicable city ordinances and policies;**

The proposed Development Plan complies with all standards of the Zoning and Development Code.

- B. The proposed use must be allowed in the district in which it is located;**

The proposed Development Plan is allowed within the proposed R-6 Open Space Zoning District which permits single unit homes.

- C. Vehicular ingress and egress to and from the site, and circulation within the site must provide for safe, efficient, and convenient movement of traffic not only within the site but on adjacent roadways;**

Vehicular ingress and egress to and from the site is not inhibited by this Development Plan

- D. The plan must provide for safe, efficient, and convenient non-motorized travel opportunities, being pedestrian and bicycle movement, on the subject site;**

The proposed Development Plan does not inhibit pedestrian circulation and safety. Connections to the regional trail are provided within the development.

- E. The plan must provide for adequate utilities based on City standards for the particular development proposed.**

Adequate utilities are existing on site or proposed for the Development Plan.

- F. The location, orientation, and architectural features, including design and material, of buildings and other structures on the site must be designed to be compatible with adjacent properties.**

There are not proposed buildings or structures with this Development Plan. The single unit homes will be required to be built to the requirements of the Zoning and Development Code at the time of construction.

- G. Landscaping, berms, fences, and/or walls must be provided to buffer the site from undesirable views, noises, lighting, or other off-site negative influences and to buffer adjacent properties from negative influences that may be created by the plan.**

Proposed landscaping is in conformance with the requirements as set forth in Section 88-425 of the Zoning and Development Code. Landscape plans will be finalized with a project plan at the time of Final Plat.

- H. The design of streets, drives, and parking areas within the project should result in a minimum of area devoted to asphalt or other impervious surfaces consistent with the needs of the project and city code requirements.**

Excess impervious area is not proposed with this Development Plan. This plan utilized the Open Space zoning category which requires that 30% of the property is preserved as open space.

- I. The plan must identify trees to be removed and trees to be preserved during the development of the subject property with the goal of saving trees that are not required to be removed for the development of the property.**

The Project Plan identifies trees to remain and new trees to be planted.

Planner

Plan Conditions

Report Date: March 27, 2024

Case Number: CD-CPC-2024-00009

Project: Mandolin Creek Residential Development

Condition(s) by City Planning and Development Department. Contact Matthew Barnes at (816) 513-8817 / matthew.barnes@kcmo.org with questions.

1. That the developer construct a ten foot wide, six inch thick, concrete trail along the western side of the creek which ties into the proposed trail extending from the Woodhaven development to the east.
2. That prior to recording of the Final Plat of each phase the developer must post a sign at the terminus of all stub streets indicating that the stub street is intended to be opened to through traffic when the adjacent property is developed. The sign must state "FUTURE THROUGH STREET. TO BE CONNECTED WHEN ABUTTING PROPERTY DEVELOPS."
3. The developer shall secure approval of a project plan from the City Plan Commission prior to recording of the Final Plat for Phase 3 for Tracts D and E.
4. The developer shall submit an affidavit, completed by an ISA certified arborist, an SAF certified forester, a professional engineer, or a landscape architect licensed in the State of Missouri, verifying that all trees preserved and all trees planted to meet mitigation required of the approved plan, whichever is applicable, has been installed or preserved in accordance with the plan and is healthy prior to Certificate of Occupancy.
5. As part of the public entitlement process you are required to meet the public engagement Section 88-505-12 of the City's Zoning and Development Code. Submit all required public engagement documentation to your assigned planner by 03/13/2024 via publicengagement@kcmo.org and matthew.barnes@kcmo.org.
6. The developer shall submit an affidavit, completed by a landscape architect licensed in the State of Missouri, verifying that all landscaping required of the approved plan has been installed in accordance with the plan and is healthy prior to Certificate of Occupancy.
7. The developer shall submit an affidavit, completed by a landscape architect licensed in the State of Missouri, verifying that street trees have been installed in accordance with the approved street tree planting plan and are healthy prior to Certificate of Occupancy.
8. That prior to recording of the Final Plat for the first phase the developer gain approval of a Street Name Plan for the entire development.
9. That prior to being heard by City Council the applicant revises the plan to provide the trail's centerline length in linear feet and list its calculation for parkland dedication per section 88-408-H.

Condition(s) by City Planning and Development Department. Contact Terry Thomas at (816) 513-2510 / Terry.A.Thomas@kcmo.org with questions.

10. The developer shall dedicate additional right of way [and provide easements] for NW 100th street (Future Tiffany Springs Pkwy) as required by the adopted [Major Street Plan and/or Chapter 88] so as to provide a minimum of 75 feet of right of way as measured from the centerline, along those areas being platted.
11. The developer shall secure permits to extend public sanitary and storm water conveyance systems to serve all proposed lots within the development and determine adequacy of receiving systems as required by the Land Development Division, prior to recording the plat or issuance of a building permit whichever occurs first.
12. The developer shall pay impact fees as required by Chapter 39 of the City's Code of ordinances as required by the Land Development Division.
13. The developer must design and construct all interior public streets to City Standards, as required by Chapter 88 and the Land Development Division, including curb and gutter, storm sewers, street lights, and sidewalks.
14. The developer shall submit a streetscape plan for approval and permitting by the Land Development Division prior to beginning construction of the streetscape improvements in the public right of way, and construct ADA compliant ramps at all required locations where new private drives are being added, or where existing sidewalks are modified or repaired.

Condition(s) by City Planning and Development Department. Contact Terry Thomas at (816) 513-2510 / Terry.A.Thomas@kcmo.org with questions.

15. The developer shall integrate into the existing street light system any relocated existing street lights within the street right-of-way impacted by the new drive or approach entrances as required by the Land Development Division, and the relocated lights must comply with all adopted lighting standards.
16. The developer shall submit a Macro storm drainage study with the first Plat or Phase, from a Missouri-licensed civil engineer to the Land Development Division showing compliance with current adopted standards in effect at the time of submission, including Water Quality BMP's, to the Land Development Division for review and acceptance for the entire development area, and submit Micro storm drainage study with each subsequent Plat or Phase showing compliance with the approved Macro and adopted standards. The developer shall secure permits to construct any improvements as necessary to mitigate impacts from rate, volume, and quality of runoff from each proposed phase, prior to recording the plat or prior to issuance of a Building Permit, whichever occurs first as required by the Land Development Division.
17. The developer shall submit covenants, conditions and restrictions to the Land Development Division for review by the Law Department for approval and enter into covenant agreements for the maintenance of any private open space tracts with stream buffer zones or stormwater detention area tracts, prior to recording the plat.
18. The developer shall submit verification of vertical and horizontal sight distance for the drive connection to public right-of-way to the Land Development Division and make improvements to ensure local jurisdiction and/or minimum AASHTO adequate sight distance standards are met, prior to issuance of any certificate of occupancy.
19. The developer shall cause the area to be platted and processed in accordance with Chapter 88, Code of Ordinances of the City of Kansas City, Missouri.
20. The developer shall submit plans for grading, siltation, and erosion control to Land Development Division for review and acceptance, provide a copy of the Storm Water Pollution Prevention (SWPP) plan submitted to the Missouri Dept. of Natural Resources (MDNR) and secure a Site Disturbance permit for any proposed disturbance area equal to one acre or more prior to beginning any construction activities.
21. The developer must [grant on City approved forms, a STREAM BUFFER Easement to the City] or [show and label the final stream buffer zones on the subdivision plat within a private open space tract], as required by Chapter 88 and Land Development Division, prior to issuance of any stream buffer permits.

Condition(s) by Fire Department. Contact Michael Schroeder at (816) 513-4604 / michael.schroeder@kcmo.org with questions.

22. A required fire department access roads shall be an all weather surface. (IFC-2012: § 503.2.3)
Fire Department access roads shall be provided prior to construction/demolition projects begin. (IFC-2018 § 501.4 and 3310.1; NFPA 241-2013 § 7.5.5)

Required fire department access roads shall designed to support a fire apparatus with gross axle weight of 85,000 pounds. (IFC-2018: § 503.2.3)

he turning radius for fire department access roads shall be 30 feet inside and 50 feet outside radius. (IFC-2018: § 503.2.4)

Shall provide fire lane signage on fire access drives.
23. The developer shall meet the fire flow requirements as set forth in Appendix B of the project International Fire Code 2018. (IFC-2018 § 507.1)
24. Fire hydrants shall be installed and operable prior to the arrival of any combustible building materials onto the site. (IFC-2018 § 501.4 and 3312.1; NFPA 241-2013 § 8.7.2)

Fire hydrant distribution shall follow IFC-2018 Table C102.1
25. One and two family residential developments exceeding 30 dwelling units shall have at least two separate and approved fire apparatus access roads (IFC-2018: § D107.1)
If the project is built in phases before the 31st home is started the second access shall be present.

Condition(s) by Parks & Recreation. Contact Richard Sanchez at (816) 513-7678 / Richard.Sanchez@kcmo.org with questions.

Condition(s) by Parks & Recreation. Contact Richard Sanchez at (816) 513-7678 / Richard.Sanchez@kcmo.org with questions.

26. The developer shall be responsible for dedication of parkland, private open space in lieu of parkland, or payment of cash-in-lieu of either form of dedication, or any combination thereof in accordance with 88-408. Should the developer choose to pay cash-in-lieu of dedicating all or a portion of the required area, the amount due shall be based upon the 2024 acquisition rate of \$64,220.18 per acre. This requirement shall be satisfied prior to release of the Final Plat.
27. The developer shall submit a streetscape plan with street tree planting plan per 88-425-03 for approval and permitting by the Parks & Recreation Department's Forestry Division prior to beginning work in the public right-of-way

Condition(s) by Water Services Department. Contact Heather Massey at (816) 513-2111 / heather.massey@kcmo.org with questions.

28. The developer shall ensure that water and fire service lines should meet current Water Services Department Rules and Regulations. Prior to C of O.
<https://www.kcwater.us/wp-content/uploads/2022/05/2022-Rules-and-Regulations-for-Water-Service-Lines-Final.pdf>
29. No water service tap permits will be issued until the public water main is released for taps.

Condition(s) by Water Services Department. Contact Kirk Rome at (816) 513-0368 / kirk.rome@kcmo.org with questions.

30. Submit water main extension plans through Compass KC for review, approval and contracts following KC Water Rules and Regulations for Water Main Extensions. The plans shall include water mains of sufficient size and related appurtenances to serve the new development. Per the development plans a 12" water main and related exclusive water easement along the south side of the south right-of-way of the future Tiffany Springs Pkwy shall be constructed for that length that is adjacent to the new development.

Condition(s) by Water Services Department. Contact Lucas Kaspar at (816) 513-2131 / Lucas.Kaspar@kcmo.org with questions.

31. The developer shall submit a Preliminary Stream Buffer plan prior to approval of the plan in accordance with the Section 88-415 requirements.
32. The developer shall submit a final stream buffer plan for review and approval prior to issuance of any building permits and obtain permits for the Stream Buffer prior to removal of any mature riparian species within the buffer zones due to construction activities on the site, in accordance with the Section 88-415 requirements.
33. The developer must grant on City approved forms, a STREAM BUFFER Easement to the City, as required by Chapter 88, prior to issuance of any stream buffer permits.
34. The developer must obtain a Floodplain Development Permit from Development Services prior to beginning any construction activities with the floodplain.
35. The developer must show the limits of the 100-year floodplain on the final plat and show the Minimum Low Opening Elevation (MLOE) of any structure on each lot that abuts a 100-year flood prone area (including detention basins and engineered surface drainage conveyances) on any plat and plan.

NOTARY PUBLIC - NOTARY SEAL
STATE OF MISSOURI
MY COMMISSION EXPIRES MAY 22, 2027
PLATTE COUNTY
COMMISSION #23556246

My Commission Expires 5/22/2027

Said sign shall be furnished by the City to the applicant and the applicant shall firmly affix and attach the sign to a wood or metal backing or frame. The sign shall be posted in a fashion visible from a public right-of-way or public place, shall not be further than ten (10) feet from the property line exclusive of the public right-of-way and shall be posted in a manner that the bottom portion of the sign is no further than eighteen (18) inches from the ground. The applicant shall file an affidavit prior to the public hearing stating that said sign has been posted according to these regulations.
