Mayor Pro Tem and NPDC Committee Members,

I live in Waldo and have virtually logged into the City Planning Commission meeting on July 2 and last weeks NPDC meeting regarding digital signage.

While I support drive thru businesses having digital signage, I strongly disagree with all monument signs having digital signage or the potential to install digital. This would create unsafe traffic conditions in neighborhoods & along streets like Wornall that abuts my neighborhood. It would be quite unpleasant for houses that surround schools and churches with digital lighting all night. Both the City Planning Commission & the NPDC shared these concerns along with others.

Please find a way to carve out usage for drive thru signs and leave the ordinances for other monument signs in place. There has to be a way to address both sides of this issue. I trust that you will find it.

Thank you.
