1. Foot-candle values within photometric only includes new construction lighting. Existing street lighting shown are not included in calculations.
2. All light fixtures to be dimmed after 11pm or other time as required by the city to adhere to the spillover light requirements for zoning areas. Light spillover shall not exceed 0.186 foot-candle onto R-zoned property areas ("South Residential" calculations) and shall not exceed 1.0 foot-candle onto public rights-of-way areas (all other property line calculations). New lighting shall not spill over into the residential side of Walnut St as shown in the "East Residential" calculations.
3. All light fixtures shall be capped to prevent shine upward into night sky with the exception of facade lighting. Facade lighting will be aimed towards the facade or outwards on public ROW sides of the building. Residential facing sides of the building will not have outward aimed lighting. All facade lighting shall also have capability to be controlled via time clock independent from other site lighting and can be turned off at hours required by the city.
